mum cost

H. J. WEBER & SONS NURSERY COMPANY

GRAVOIS and WEBER ROADS :: AFFTON, MO.

● WEBER'S 12 Select Hybrid Tea ROSES

Budded, 2-year, No. 1 Plants

for \$4.45 POST-PAID

If bought singly would cost \$5.40.

Collection includes, illustrated in order mentioned, beginning at upper left: Dame Edith Helen, pink; Edel, white; Etoile de Hollande, red; Eldorado, yellow; K. A. Victoria, white; Los Angeles, pink; Madame Butterfly, light pink; Mrs. Chas. Bell, pink salmon; Mrs. Henry Bowles, pink; Red Radiance, red; Pink Radiance, pink; and Sunburst, yellow. This collection will make a wonderful small rose garden with a wealth of bloom all summer long.

● BLAZE ●

Blaze is a remarkable new introduction combining Paul's Scarlet with Gruss an Teplitz, and producing an everblooming climber of great vigor, and covered from June until frost with blooms like Paul's Scarlet. 2-year select plants, each, \$2.00.

Owing to sudden changes in conditions since our catalogues were printed, we have made several reductions which will benefit our customers.

25% off on all Evergreens excepting Blue Spruce.

The following are new prices on Chinese Elm—see Page 8 under Ulmus Pumila:

	Each	Per 10	Per 100
Chinese Elm, 6-8'	\$ 0.75	\$ 6.00	\$ 50.00
Chinese Elm, 8-10'	1.00	8.50	75.00
Chinese Elm, 1¼-1½" cal.	1.50	13.00	120.00
Chinese Elm, 1½-1¾" cal.	2.00	18.00	165.00

25 lb. package.....	.80	1000 lb. lots.....	17.00
50 lb. bags.....	1.25	Per ton.....	32.00

ing modern planting for your grounds

The business now known as H. J. Weber & Sons Nursery Co. was established in 1867 by Henry J. Weber, who was widely known in those days as a successful "tree grower" and a maker of fine wines.

In early days of the business the Weber name became most favorably known among smaller nurseries who depended on us for stock to fill their orders—many of whom maintained a crew of agents but grew very little of their own stock.

● management vested in Weber family since 1867

The business prospered and the family grew. In 1903 the Weber fields were growing half a million trees besides many of the better varieties of shrubs and roses.

As the sons finished school they were taken into the business. Two of the boys, Frank and Henry, have now passed away, leaving William, Walter and George still in the business. William A. Weber is active head of the business. Walter is general superintendent, while George has charge of the work of growing in the fields.

● ideas of home beautification vastly different than a few years ago

In recent years the home beautification idea has taken much of their attention until now Weber creations are known the country over as developments of the very highest type.

And these are the things that should interest the buyer—because anything that grows will do better for those whose knowledge of nursery culture is limited if the original grower has given it a start with sturdy varieties of known origin and cultivates their hardiness and productivity.

● give us your full confidence

So, you are encouraged to buy from Weber stocks in full confidence that you cannot fare better or get

we prize our reputation as nurserymen above everything else and desire everything shipped to our customers, old and new, will give them the satisfaction they may rightfully expect.

● if you live within motoring distance of St. Louis, come and see us

If possible you should visit us during the summer and fall seasons, and personally inspect the great variety of interesting plants we have.

We make this invitation with no idea of selling you some of our products, but rather that we may know you better. We know we have a nursery that is well worth seeing. Come and stay as long as you like.

We would, however, respectfully ask all those who can possibly do so to come during week days. Our office will be open on Sunday mornings during the months of October and November, March, April and May, to accommodate customers who cannot come on week days.

Of course, during the shipping period we are rushed filling orders, and so the ideal time for inspection or sight-seeing over our grounds is during the growing season. As you view our fields of nursery stock, you will be impressed with the selection we have for every type of soil and location.

During the planting season we are able to give you freshly-dug plants. These you can load in your car and have them home in a few hours. Or we can ship them to you after you have made your selection. People situated close enough to us, by all means should, some time or other, avail themselves of this opportunity. There is always something fascinating to see about a nursery.

● greatly reduced prices this year

This year prices are considerably lower than they have been for a good long time and we urge you to buy liberally. Last season was an exceptionally good one for sturdy stock development in this locality and we honestly believe that stock we are offering now have better root systems and greater vitality than many seasons past—so we advise ordering all you can use—because the values are really extraordinary.

H. J. WEBER & SONS NURSERY CO.

● the modern trend in landscaping develops and brings out the beauty of house and grounds ~ ~

AN OLD TIME PLANTING THAT COULD BE MODERNIZED AT SMALL COST

THERE is no denying the fact that the modern age appreciates beauty of the home and grounds more than ever before. This is why the vogue of beautiful grounds is captivating the country, and why everyone will soon be exemplifying the idea that "It isn't a home till it's planted." Much money is now spent to make the exterior and the inside of homes beautiful and harmonious from an architectural standpoint; but with all this, home grounds that are left without trees, shrubs, flowers and natural touches are incomplete, much as a man dressed without collar and tie.

The most attractive home plantings average a mere two per cent of the cost of the house—and this trifle adds more to your home's appearance and value than any other single item. The joy and pride of ownership of planted grounds is incalculable. Trees and plants increase in value every year; a thing that cannot be said of any other furnishing or feature you can add.

Beautification of the grounds is necessary on every piece of home property—trees are needed to shade and frame the house; shrubs to border; foundations plantings to "tie the house to the ground"; evergreens to give winter cheer; flowers for color and beauty. All in all, the grounds should be your OUTDOOR LIVING ROOM.

● every dollar invested in home beautification means added value to your property

A purchase of nursery stock cannot be called an expenditure. Strictly speaking, it cannot even be called an investment, for it is too safe and sure. It is that unheard-of thing, a financial deal in which you cannot lose. Nursery stock begins to increase in value as soon as you have planted it, becoming larger and more beautiful each year. Compare this with the inevitable deterioration which is suffered by nearly every other variety of merchandise, and you cannot but feel the superiority of Nature's goods to the inventions of man.

● we want YOU as a customer

For over half a century Weber's Nursery has stood as a standard of quality. We have adopted a policy of co-operation, both with Nature and with our customers, and that policy has met with gratifying approval and success. Satisfied customers mean more to us than financial gain, and our greatest satisfaction comes in the realization that we have established a confident and appreciative list of patrons who always look to us for their nursery needs.

We would like you to honor us by adding your name to this list, and we feel sure that you will never regret a decision to sample our quality and efficiency. We invite you, then, to come into our garden—and to make it your own. If you do not live close enough to do that, use our catalog to help in selecting the things needed for the beautification of your home grounds.

● we can help with your plans

If you live within 50 miles of St. Louis, we will be glad to give your problem our personal attention. Our landscape men have spent many years in this work, and their training is yours for the asking. If you live too far for personal visits, we'll be just as happy to serve you by mail.

A MODERN PLANTING WHERE SPACE IS LIMITED—A BIG SHOWING AT SMALL COST

**THE MISSOURI STATE BOARD OF
AGRICULTURE**

Office of the Plant Commissioner,
Jefferson City.

CERTIFICATE OF NURSERY INSPECTION

No. 51 Issued July 8, 1932.

This is to certify, that in accordance with the provisions of the Missouri Plant Act of 1929, the Nursery and premises thereof belonging to H. J. Weber & Sons Nursery Company of Affton, Mo., have been inspected by a duly authorized inspector and were found to be apparently free of injurious insect pests and plant diseases.

This certificate is not transferable and may be revoked for cause.

This certificate expires September 1, 1933.

K. C. SULLIVAN, Plant Commissioner.

● **even the smallest home can be
immeasurably improved by proper
landscaping**

Real landscape possibilities exist on even the smallest places. Let us help discover them for you. A few well placed trees and shrubs will have a magic effect. In fact, individual beauty and real distinctiveness are more often achieved in the decoration of modest grounds than in the more pretentious plantings of large places. Some of the best examples of harmonious and artistic lawn planting are to be found on small places.

For a given expenditure of time and money nothing will effect so great and pleasing a transformation as an artistic base planting. Practically every house needs the softening, harmonizing effect of well placed masses of shrubbery. The finest architecture will not save a house from an unpleasant aspect of bareness if this planting has been neglected, while on the other hand the simplest cottage can be made to look as cozy and inviting as the home of our dreams if the proper setting of trees and shrubs is built up around it. The final touch that gives the necessary charm to the entire picture must come from the landscape planting.

● **helpful suggestions**

To have success with trees you must give them attention after they are planted. Forget the idea that when you have filled the hole, the tree is going to take care of itself.

To quickly mature a fruit tree and make it produce much earlier, you will have to cultivate and fertilize. Do not let grass and weeds steal too much of the moisture and fertility of the soil nearby. For the first several years, at least, you should keep these pests away that the trees may get a proper start.

Sod may be left around the older trees in the lawn but under such circumstances it is best to retain a little "saucer," free of grass, about the trees. This "saucer" will hold water and double the growth of the trees.

Pruning is a simple process. Remember never to be severe. Just shape and form your trees to build a frame out of living branches to support the fruit.

LARGE TREES

Immediate effects are obtained by using large trees. We have some trees larger than the regular grades, which are excellent specimens. Write us for prices and information.

LOCATION: Nurseries and Office on Highway 30, one and one-quarter miles from limits of ST. LOUIS.

● **you can depend on us to ship
your order at the right time**

During the course of a year we receive many orders that customers expect to be shipped at once. There are so many things that affect the growth of plants that we suggest you let us use our judgment about the date of shipping. Sometimes in the fall, before frost has ripened the leaves of trees; during extreme drought; or in winter when the ground is too cold—or any time when conditions are not right for planting—we will not ship until, in our judgment, you may plant in safety. This relieves you of the worry and care of storing and protecting plants until proper conditions arrive. If you must have a certain shipping date, specify this fact and we will ship accordingly.

Success with your plants depends not so much on the time they are planted as upon the condition of the stock and your own planting conditions. You must first get your soil in the best physical condition, properly enriching it, if necessary. Second, when you receive the plants, handle them carefully without exposing their roots.

Plenty of water and cultivation given after plants start to grow will make plantings usually successful.

● **place your order early**

Our business is crowded into a few weeks of fall and spring and we can reserve for you plenty of good material if you advise us of your requirements in time. Every customer has the privilege of asking for advice about the things he purchases of us. We will gladly render every service we can.

CASH with order is expected. When credit must be arranged, please write us in ample time.

● **read this book carefully;
it will help with your plans**

The Weber catalog is looked upon by many as one of the most authentic nursery guides published. It represents years of our labors, and is intended to give you reliable information—as we find it from specimens growing here in our own nurseries. Common names as well as botanical names are given for all listings—as well as specific characteristics of varieties, so that you will know exactly what to expect from the stock in your own garden.

We call your particular attention to the article, **Terms, Conditions, and General Remarks**, on page 9 of this book, which will inform you regarding replacement, substitution, inspection, terms, etc.—and you should read carefully.

The Weber Nurseries are most liberal in their dealings, and sincerely appreciate the friendship of those they serve, but there are certain practices in the sale of nursery stock which the buyer should understand—hence we make the suggestion that you carefully read page 9.

TREES

have a very definite
use in the decorative
scheme of every home
planting. We can help
with your problem.

Write us.

DECIDUOUS Ornamental Trees

A few good trees and an even, luxuriant lawn are the two real essentials for beauty and comfort on the home grounds. Since the trees require several or more seasons to become well established, it is important for the homeowner to get them planted on the property as soon as possible. The opportunity given by the year's rather short planting season should be taken advantage of.

For full planting instructions, see our Guide, "HOW TO PLANT."

In order to make it easier for planter to select trees for particular purposes, we have adopted letters to denote the various classes, as follows:

T—Denotes trees that attain a height of 50 feet and over at maturity.

M—Denotes trees that attain a height of 25 to 40 feet at maturity.

S—Denotes trees that attain a height of 8 to 15 feet at maturity.

D—Denotes trees that attain a height of 2 to 8 feet at maturity.

ACER—Maple

A. *platanoides* (Norway). T. A native of Europe. Its large compact habit, broad, deep green shining foliage, render it one of the most desirable species for streets, parks and lawns.

	Each	Per 10
1 to 1¼ inch, 6 to 8 feet.....	\$2.50	\$22.50
1¼ to 1½ inch, 8 to 10 feet.....	3.50	32.00
1½ to 1¾ inch, 10 to 12 feet.....	4.50	42.00
1¾ to 2 inch, 12 feet.....	5.50	52.00

A. *platanoides* var. *Schwedleri* (Purple Norway Maple). M. The beautiful leaves attract attention at all seasons, but are especially fine in spring, when their gleaming red and purple contrast brightly with the delicate green of other trees. In mid-summer they are purplish-green; in autumn, golden-yellow.

	Each	Per 10
6 to 8 feet.....	\$3.75	\$35.00

A. *polymorphum atropurpureum* (Purple-Leaved Japan Maple). D. Forms a bushy shrub; foliage dark purple and deeply cut; very ornamental. The hardiest and altogether the best of the Japan Maples.

	Each	Per 10
2 to 3 feet.....	\$ 9.00	\$85.00

A. *saccharinum* (Silver Leaved). T. A hardy rapid-growing native tree of large size, valuable for producing a quick shade. Excellent for street planting.

	Each	Per 10	Per 100
6 to 8 feet.....	\$0.65	\$ 5.50	\$ 45.00
1 to 1¼ inch, 8 to 10 feet.....	.80	7.00	60.00
1¼ to 1½ inch, 8 to 10 feet.....	1.20	10.00	90.00
1½ to 1¾ inch, 10 to 12 feet.....	1.75	15.00	130.00
1¾ to 2 inch, 12 to 14 feet.....	2.50	22.50	200.00

A. *saccharinum* var. *Wierii* (Wier's Cut-Leaved Silver Maple). T. One of the best cut or dissected-leaved trees; being of rapid growth it soon produces an effect. Young shoots slender and drooping.

	Each	Per 10
8 to 10 feet, 1¼ to 1½ inch.....	\$1.50	\$12.50

A. *saccharum* (Sugar). T. A very popular American tree, and for its stately form and fine foliage justly ranked among the very best, both for lawn and avenue.

	Each	Per 10
8 to 10 feet, 1¼ to 1½ inch.....	\$3.25	\$30.00
10 to 12 feet, 1½ to 1¾ inch.....	4.00	37.50

European White Birch, Sometimes Called
"The Lady of the Woods"

AESCULUS—Chestnut

A. *hippocastanum* (Horse). T. This magnificent, large-sized tree has no superior on the lawn. In the spring it is profusely covered with panicles of white flowers dotted with red.

	Each	Per 10
6 to 8 feet.....	\$2.75	\$25.00
8 to 10 feet.....	3.75	35.00

AILANTHUS—Tree of Heaven

A. *altissima* (Glandulosa). T. A rapid growing, lofty tree, long elegant foliage.

	Each	Per 10
6 to 8 feet.....	\$1.50	\$12.50
8 to 10 feet.....	2.00	17.50

ALBRIZZIA—Mimosa

Albrizzia julibrissin (Mimosa or Silktree). A small tree of great grace and beauty; flat topped head; foliage finely pinnate, and a wealth of pink flowers in summer. 20 to 25 feet.

	Each	Per 10
3 to 4 feet.....	\$0.90	\$ 8.00
4 to 5 feet.....	1.25	11.00

AMYGDALUS—Almond, Peach and Plum

Amygdalus (Almond Double-flowering). See Deciduous Shrubs.

A. *persica alba* (Double-flowering Peach). S. Very ornamental. Flowers pure white and double; superb.

	Each	Per 10
5 to 6 feet.....	\$1.00	\$ 8.00
4 to 5 feet.....	.85	6.50

A. *persica rubra* (Double red-flowering Peach). S. Flowers semi-double, bright red, fine.

	Each	Per 10
5 to 6 feet.....	\$1.00	\$ 8.00
4 to 5 feet.....	.85	6.50

- A. persica rosea** (Double pink-flowering Peach).

	Each	Per 10
5 to 6 feet.....	\$1.00	\$ 8.00
4 to 5 feet.....	.85	6.50
- A. triloba** (Double-flowering Plum).
D. A beautiful small tree or shrub of fine habit, with elegant, double, rosy flowers, set very closely on slender branches.

	Each	Per 10
3 to 4 feet.....	\$0.80	\$ 6.00
4 to 5 feet.....	1.00	8.00

ARALIA—Angelica Tree

- A. spinosa** (Hercules Club). S. A very showy sort which produces suckers quite freely. Immense clusters of small, white flowers in July.

	Each	Per 10
4 to 5 feet.....	\$1.00	\$ 9.00
5 to 6 feet.....	1.30	11.00
- A. pentaphylla.** See *Acanthopanax*, Deciduous Shrubs.

BETULA—Birch

- B. alba** (European White Birch). T. Of which Coleridge says: "Most beautiful of forest trees; the lady of the wood."

	Each	Per 10
6 to 8 feet.....	\$1.85	\$17.00
8 to 10 feet.....	2.25	20.00
- B. alba laciniata pendula** (Weeping Cut-leaved Birch). See Weeping Trees.

CATALPA—Indian Bean

- C. bignonioides nana** (Chinese Catalpa Bungei). D. A small species that grows 8 to 10 feet high. Grafted on stems of the common Catalpa 5 to 6 feet from the ground, forming an umbrella-shaped top.
2-year heads, standard
Each, \$1.25, 10, \$10.00; 100, \$90.00.
1-year heads, standard
Each, \$1.00; 10, \$8.50; 100, \$70.00.
- C. speciosa** (Western). T. One of the most rapid growers. Large heart-shaped, downy leaves and compound panicles of white flowers, tinged with violet and dotted with purple and yellow.

	Each	Per 10	Per 100
8 to 10 feet ...	\$1.10	\$ 9.50	\$ 80.00
1¼ to 1½ inch diameter	1.30	11.00	100.00
1½ to 1¾ inch diameter	1.50	13.00

CELTIS—Hackberry or Nettle Tree

- C. occidentalis.** M. A native tree that deserves more general planting. Leaves are light green, glossy,

Catalpa Bungei

A Good Example of Mass Shrubbery Planting Leaving Lawn Open—The Prevailing Vogue

- pointed. Not subject to insect pests. Branches are slender and grow horizontally, forming a winde-shaped head. Thrives in all soils.

	Each	Per 10
6 to 8 feet.....	\$1.40	\$12.00

CERCIS—Red Bud

- C. canadensis** (American Judas). M. A small tree of irregular rounded form, with pretty foliage, and very showy when in bloom; the branches and twigs are covered with a dense mass of small pink flowers before the leaves expand.

	Each	Per 10	Per 100
3 to 4 feet.....	\$0.90	\$ 8.00	\$ 70.00
4 to 5 feet.....	1.25	10.00	80.00
5 to 6 feet.....	1.50	12.50
- C. chinensis** (Japonica) (Japan Judas) D. Of medium size; rounded form, foliage deep shining green and heart-shaped; flowers larger than those of Canadensis, and of a rich reddish purple color; a valuable small tree.

	Each	Per 10
1½ to 2 feet	\$.65	\$5.50
2 to 3 feet	1.00	9.00

CHIONANTHUS—White Fringe

- C. virginica.** S. A small native tree, with ash-like leaves and clusters of snow-white flowers, resembling an elegant fringe.

	Each	Per 10
2 to 3 feet.....	\$1.25	\$10.00
3 to 4 feet.....	1.75	15.00

CORNUS—Dogwood

- C. florida** (White Flowering). M. The flowers are produced in spring before the leaves appear; they are white and very showy.

	Each	Per 10
2 to 3 feet.....	\$1.00	\$ 8.00
3 to 4 feet.....	1.50	12.50
4 to 5 feet.....	2.25	20.00
5 to 6 feet.....	3.25	30.00
- C. florida rubra** (Pink Flowering). M. Recently introduced. A variety producing flowers suffused with rosy red; blooms when quite young. One of the finest flowering trees.

	Each	Per 10
2 to 3 feet	\$1.90	\$17.50
3 to 4 feet	3.80	35.00
4 to 5 feet	6.50	60.00
5 to 6 feet	9.00	85.00
6 to 8 feet.....	12.00	100.00

CRATAEGUS—Thorn

- C. coccinea** (Scarlet-fruited Thorn). M. A fine native variety. Single white flowers in spring, scarlet fruit in autumn.

	Each	Per 10
3 to 4 feet.....	\$1.50	\$12.50
- C. cordata** (Washington Thorn). Native thorn, white-flowering, small red fruit. Broad ovate leaves, grows from 6 to 8 feet.

	Each	Per 10
3 to 4 feet.....	\$1.50	\$12.50
- C. crus-galli** (Cockspur Thorn). S. A well-known native thorn; has long sharp spines or thorns; fruit bright red; valuable for hedging.

	Each	Per 10
3 to 4 feet.....	\$1.50	\$12.50
- C. oxycantha var. Paullii** (Paul's Double Scarlet Thorn). S. Flowers bright carmine-red. Superior to any of its color.

	Each	Per 10
4 to 5 feet.....	\$1.90	\$16.00

FAGUS—Beech

F. americana (Ferruginea) American Beech. T. Our noble native forest tree, with silvery bark, fine spreading growth and symmetrically rounded head. In this section, like many of our hardwood and valuable trees, is rather hard to transplant, requires very careful handling and care throughout the first season.

	Each
3 to 4 feet	\$2.50
5 to 6 feet	4.50

FRAXINUS—Ash

F. americana (American White). M. A rapid-growing native tree, valuable for planting along streets or in parks.

	Each	Per 10
8 to 10 ft., 1¼ to 1½ inches	\$2.75	\$25.00
10 to 12 ft., 1½ to 1¾ inches	3.50	32.50

GINKGO—Salisburya (Maiden Hair Tree)

G. biloba. T. A native of China and Japan, forming a medium or large tree; leaves fan-shaped.

	Each	Per 10
8 to 10 feet, 1¼ to 1½ inches	\$4.75	\$45.00
10 to 12 feet, 1½ to 1¾ inches	5.75	55.00

GLEDITSIA—Honey Locust

G. inermis (Thornless Locust). Similar in habit to Honey Locust, but devoid of thorns.

	Each	Per 10
8 to 10 feet.....	\$1.75	\$15.00

G. triacanthus. M. A rapid-growing native tree, with powerful species and delicate foliage. Very sweet scented.

	Each	Per 10
8 to 10 feet.....	\$1.50	\$12.50

**For Black Locust and
Globe Locust, see
ROBINIA.**

Sycamore—American Plane

HALESIA—Silver Bell

Their chaste, pure white flowers are produced in abundance along the entire length of the branches as the leaves appear in the spring, and give a very charming picture. Best grown in well-drained soil in somewhat sheltered position.

H. tetraptera (Carolina). The hardiest species. Very choice.

	Each	Per 10
2 to 3 feet.....	\$0.80	\$ 6.00
3 to 4 feet.....	1.00	8.00

JUGLANS—Walnut

See Nut Trees, Page 40.

LIQUIDAMBER— Sweet Gum

L. styraciflua. T. A large native tree, with rough, corky bark and shining, deep lobed, star-shaped leaves, changing to deep crimson in the autumn.

	Each	Per 10	Per 100
4 to 5 feet, B. & B.	\$ 4.75	\$ 44.00	\$400.00
5 to 6 feet, B. & B.	\$ 6.00	\$ 50.00	\$450.00
6 to 8 feet, B. & B.	\$ 7.50	\$ 70.00	\$650.00
8 to 10 feet, B. & B.	\$ 9.00	\$ 80.00	\$750.00
10 to 12 feet	\$12.50	\$100.00
12 to 15 feet	\$15.00	\$130.00

**we are
HEADQUARTERS
for
Sweet GUM Trees**

LIRIODENDRON— Tulip Tree

L. tulipifera. T. One of our very largest native trees, with large, smooth, shining leaves, greenish-yellow flowers and an umbrageous head.

	Each	Per 10
4 to 5 feet	\$1.00	\$ 7.50
6 to 8 feet.....	1.75	15.00
8 to 10 feet.....	2.50	22.50

MAGNOLIA

M. acuminata (Cucumber Tree). T. A beautiful and symmetrical tall tree, with large leaves; excellent for lawns and avenues.

	Each	Per 10
4 to 5 feet	\$2.75	\$25.00

M. glauca (Sweet Bay or Swamp Magnolia). S. When planted in moist soil this makes a handsome tree of medium size. Its leaves are glossy, laurel-like, almost evergreen. In June its pure white flower-cups are lovely and grand.

	Each	Per 10
2 to 3 feet	\$3.90	\$36.50
3 to 4 feet	5.75	55.00
4 to 5 feet	7.50	72.50

Magnolia Tree
Blooms Before Leafing Out

MAGNOLIA—Chinese Species

M. alba superba. D. A very fine white variety.

M. lennei (Lenne's Hybrid). S. A variety of great beauty. The large flowers are of deep rose color, the foliage tropical and heavy, the tree vigorous and profuse blooming, frequently opening flowers at intervals through the summer.

M. soulangeana (Soulange's Magnolia). S. One of the hardiest and finest of foreign Magnolias. Its flowers are from 3 to 5 inches across, cup-shaped, white and rosy violet.

	Each
2 to 3 feet.....	\$ 6.00
3 to 4 feet, B. & B.....	10.00
4 to 5 feet, B. & B.....	13.00

M. stellata (Syn. Halleana). S. A pretty dwarf form that opens its snowy, semi-double flowers in April, earlier than any other Magnolia; their fragrance is pronounced and delicate. Rare

	Each
24 to 30 inch	\$9.00

MALUS—Crab

M. atrosanguinea. S. Red flowers.

	Each	Per 10
4 to 5 feet	\$1.40	\$12.00

M. coronarius. S. Sweet-scented crab. Largely used in landscape work.

Q. rubra (Red Oak). T. An American species, of large size and rapid growth, foliage purplish-red in the fall.

	Each	Per 10
6 to 8 feet	\$4.00	\$35.00
8 to 10 feet	5.00	45.00

Lombardy Poplar

Globe Locust

ROBINIA—Acacia or Locust

R. pseudo acacia (Black Locust). **M.** A native tree, of large size, rapid growth; is being largely planted for timber; it is also quite ornamental. The flowers are in long racemes, white or yellowish, fragrant. Blooms in June. 80 ft.

Each	Per 10
6 to 8 feet	\$0.90
8 to 10 feet	1.25

R. pseudo acacia globosa (Globe Locust). A thornless, rapid-growing tree with dense, globular head; assumes compact form without shearing. The foliage is dark, glossy green, very healthy and vigorous. Globe Locust can be used wherever Catalpa Bungei is used, and is more adaptable on account of its greater hardiness. It is growing successfully in Alaska, California, South Dakota, Wisconsin, Kansas, Oklahoma, and Colorado.

Each	Per 10
5 to 6 feet stems	\$2.25 \$20.00

SALIX—Willow

All willows should be pruned annually for best results.

S. caprea (Goat Willow). **S.** Also known as Pussy Willow, catkins silky, preceding the leaves; very useful for early effects.

Each	Per 10	Per 100
3 to 4 feet	\$0.50	\$ 4.00 \$ 35.00
4 to 5 feet	.60	5.00 45.00

S. pentandra (Laurel Willow). A fine ornamental tree, with large shining leaves.

Each	Per 10
4 to 5 feet	\$0.50 \$4.00

S. vitellina aurea (Golden Willow). **M.** Grows into a massy low-headed tree. Light green leaves and brilliant golden-yellow bark in winter.

Each	Per 10
5 to 6 feet	\$0.50 \$4.00

For the Weeping Forms of Salix (Willow)—See Weeping Trees.

SORBUS—Mountain Ash

S. aucuparia. **M.** A small tree with shining, pinnated leaves and large cymes of white flowers, followed by clusters of bright red fruit.

Each	Per 10
6 to 8 feet	\$1.60 \$14.00
1 1/4 to 1 1/2 inches	2.25 20.00

S. quercifolia (Oak-Leaved Mountain Ash). **M.** A hardy tree of pyramidal habit. A fine lawn tree.

Each	Per 10
6 to 8 feet	\$1.75 \$15.00

TAXODIUM—Cypress

T. distichum (Deciduous). **T.** A distinct and handsome tree of slender habit, with soft feathery foliage. The trunk is as straight as an arrow and tapers regularly from base to tip, as stiff and dignified as a church spire.

Each	Per 10
4 to 5 feet	B. & B. \$4.25 \$40.00

TILIA—Linden

T. americana (American). **T.** A fine, pyramidal tree with large sized leaves and fragrant flowers

Each	Per 10
8 to 10 ft., 1 1/4 to 1 1/2 in.	\$2.90 \$26.00
1 1/2 to 1 3/4 inches	3.90 36.00

T. vulgaris (European). **M.** A fine pyramidal tree, with medium sized leaves and fragrant flowers.

Each	Per 10
8 to 10 feet	\$5.25 \$50.00
1 1/2 to 1 3/4 inches	7.25 70.00

ULMUS—Elm

U. americana (American). **T.** The noble, drooping, spreading tree of our woods. One of the grandest park and street trees.

Each	Per 10	Per 100
8 to 10 ft., 1 1/4 to 1 1/2 in. dia.	\$1.50	\$12.50 \$100.00
10 to 12 ft., 1 1/2 to 1 3/4 in. dia.	2.00	17.50 150.00

Terms, Conditions and General Remarks

TERMS AND PRICES. Upon delivery of stock in good condition the terms are cash and C. O. D. orders are sent where conditions warrant. All C. O. D. orders by freight or express must be accompanied by one-half cash. All prices are made to include free packing and are subject to stock being unsold upon receipt of order.

Four plants of a variety will be sold at ten rate, forty at the 100 rate. Less than four plants of a variety at the single price.

SHIPPING. Our facilities for packing and shipping are the best and we pack in bales or boxes in best possible manner to insure safe arrival. If no route is given, we use our judgment and ship over most direct route. All stock travels at purchaser's risk.

PARCEL POST shipments are packed to travel long distance without least damage to contents. Postage to be paid by consignee.

NON-WARRANTY CLAUSE. If nursery stock proves untrue to the name under which it is sold by us, a replacement of the stock, as originally ordered, without charge, or a refund of the purchase price, shall be a complete satisfaction of our liability. Except for such liability, we give no undertaking or warranty, express or implied, as to description, quality, growth, productiveness, or any other matter on any nursery stock we sell. We assume no liability for delays in delivery, or for non-delivery of nursery stock caused by frost, fire, flood, drought, hail, strikes, embargoes, war or other causes beyond our control.

ERRORS. Any errors that may occur in filling orders must be reported within five days after receipt of

goods. We will immediately correct same. Complaints entered after the above stated time will not be entertained.

INSPECTION. Our nurseries are annually inspected by the State Entomologist and have been found free of San Jose Scale and other dangerous insects and diseases. A copy of certificate of inspection will be attached to every package that leaves our establishment.

SUBSTITUTION. It is customary, should the supply of a variety become exhausted (as will occasionally occur in all establishments), to substitute in its place a similar sort if there is such. Should it be desired for us not to do this, please state on your order "No substitution." Persons not acquainted with the different varieties can leave the selection to us, in which case we will select as if planting for ourselves.

LIBERAL REPLACEMENT OFFER is made because of our confidence in the vitality of our plants. There are good reasons why plants sometimes fail to grow well after transplanting. Poor soil, careless or improper planting and after culture, excessive drought and neglect, are some of the chief factors of your loss. After delivering plants in good order, it is obvious that we have no control whatever of these future conditions. We agree to resupply f. o. b. our nurseries at one-half the original purchase price, any nursery stock purchased at catalog rates that may fail to grow by July 1 following season planted, from causes other than neglect or abuse. This offer applies only to accounts that are promptly paid when due.

DECIDUOUS ORNAMENTAL SHRUBS

☛ furnish the "finishing touch" to the outside of the home, the background or setting for your house

ABELIA

A. grandiflora. S. In the South this shrub is evergreen, but with us it sheds its leaves during the late winter. Foliage is dark green and glossy, with a pronounced tinge of red in the young branches; a very graceful plant, covered with white flowers, tinged with pink. Should be given protection during winter in this climate.

	Each	Per 10
2 to 3 feetB. & B.	\$0.75	\$ 6.50
3 to 4 feetB. & B.	1.25	10.00

ACANTHOPANAX—Aralia

A. pentaphyllum. S. Shrub with long slender branches and few spines. Fine for rocky slopes; foliage bright green, shiny. Flowers green in long umbels.

	Each	Per 10	Per 100
2 to 3 feet	\$0.50	\$4.00	\$35.00
3 to 4 feet60	5.00	45.00

S. nigra variagata (Variegated). L. Foliage beautifully variegated with silver and green.			
Each Per 10 Per 100			
2 to 3 feet	\$0.50	\$4.00 \$35.00
3 to 4 feet60	5.00 45.00
S. racemosa (Pubens or Red-berried Elder). L. White flowers in panicles in spring, followed by bright red berries.			
Each Per 10 Per 100			
2 to 3 feet	\$0.50	\$4.00 \$35.00
3 to 4 feet60	5.00 45.00

RHUS—Sumach—Cont'd

R. typhina (Staghorn Sumach). L. A large shrub or tree, brilliant foliage and scarlet fruit in autumn.			
Each Per 10 Per 100			
3 to 4 feet	\$0.55	\$4.50 \$40.00
R. typhina laciniata (Cut-leaf Staghorn Sumach). L. A large shrub or tree, brilliant foliage and scarlet fruit in autumn.			
Each Per 10 Per 100			
3 to 4 feet	\$0.65	\$5.50 \$50.00

RIBES—Currant

R. odoratum (aureum) (Missouri Currant). M. May. Golden-yellow, spicily fragrant flowers in showy racemes. Foliage shining and glabrous, taking on showy autumnal coloring.			
Each Per 10 Per 100			
18 to 24 in.	\$0.35	\$2.50 \$20.00
2 to 3 ft.45	3.50 30.00
3 to 4 feet55	4.50 40.00

ROBENIA—Locust or Acacia

R. hispida (Rose or Moss Locust). M. A native shrub of spreading, irregular growth. Flowers rose-colored in long clusters in June.			
Each Per 10			
3 to 4 ft., top grafts	\$1.75	\$12.50
4 to 5 feet	2.00	17.50

An indispensable class of small to medium-sized shrubs embracing a wide range of foliage, habit of growth, color of flowers and season of blooming. All of easiest culture in all soils.

Prices on following varieties:			
Each Per 10 Per 100			
18 to 24 inches	\$0.35	\$2.50 \$20.00
2 to 3 feet45	3.50 30.00
3 to 4 feet55	4.50 40.00
S. alba salicifolia (Willow-leaved). M. Long, narrow, pointed leaves, and rose-colored flowers in June and July.			
S. billardi . M. Medium sized shrub, producing spiked panicles of flowers, bright rose color.			
S. douglasii . M. Immense terminal spikes of deep rose-colored flowers. One of the best.			
S. fontenayii alba . M. A pretty variety, with white flowers in summer. Upright grower.			
S. opulifolia . (See Physocarpus).			
S. reevesiana (Lance-leaved—Single). M. One of the most ornamental; showy flowers, pure white, in umbels and very numerous.			

Special varieties quoted below:

S. anthony waterer . D. A new crimson flowered variety; one of the most beautiful of dwarf flowering shrubs. It makes a low, compact bush for border planting.			
Each Per 10 Per 100			
15 to 18 in.	\$0.35	\$2.50 \$20.00
18 to 24 in.45	3.50 30.00
S. bumalda . S. A spreading, low bush, with dark leaves, brightened by corymbs of pretty, light pink flowers in May, and at intervals all summer.			
Each Per 10 Per 100			
15 to 18 in.	\$0.35	\$2.50 \$20.00
18 to 24 in.45	3.50 30.00
S. callosa var. froebellii . D. Flowers bright rosy-red, in flat umbels; excellent as a border shrub. Foliage turns purple in the fall.			
Each Per 10 Per 100			
18 to 24 in.	\$0.35	\$2.50 \$20.00
24 to 30 in.45	3.50 30.00
S. multiflora arguta . S. Of dwarf habit; flowers clear white. The best early-flowering White Spirea. Early May.			
Each Per 10 Per 100

2 to 3 feet	\$0.50	\$4.00 \$35.00
3 to 4 feet60	5.00 45.00
S. thunbergii (Snow Garland). S. Dwarf habit and round, graceful form; branches slender and somewhat drooping; foliage narrow and yellowish-green. Flower small, white. Early bloomer.			
Each Per 10 Per 100			
18 to 24 in.	\$0.35	\$2.50 \$20.00
24 to 30 in.45	3.50 30.00

we have created landscaping plans for fine homes all through the central west
wouldn't you like to replant your grounds?

PLANTING AND CULTURAL HINTS

The actual planting operation is similar to that suggested for other nursery stock. Stake out your holes, remembering that it is easier to move a stake than a shrub after it is planted. In other words, get your spacing right. A good rule to follow is—a shrub will spread approximately as wide as it grows tall—in other words, if the shrub matures at 4 feet, it will spread that much. Dig the holes large enough to take the roots without crowding. Deep enough to permit planting an inch lower than they stood in the nursery row.

Now, don't simply shovel in the soil, but pulverize it and add a little at a time, shaking the plants so the soil will fall in between the roots. Tread or tamp as you fill until near the top. Apply the last two inches loose and be sure that no mound of soil is left about the plant. The first season after planting keep the ground well stirred, watered and fertilized. Mulching will not be out of place where more convenient than cultivation.

SPIREA TRICHOCARPA

(Korean Spirea)

S. A handsome new shrub, introduced from Korea. It is a splendid healthy plant, growing when mature, 4 to 6 feet tall, and has a larger spread, forming a big, dome-shaped bush, covered in its season with large, rounded clusters of snowy-white flowers marked with darker eyes. Blooms two weeks later than Van Houttei. It retains its beautiful glossy green foliage late into the autumn. Thriving in ordinary garden soil, the shrub enjoys sunshine and full exposure.

	Each	Per 10	Per 100
18 to 24 in.....	\$0.50	\$ 4.00	
2 to 3 feet.....	.60	5.00	

S. vanhoutte. M. The grandest of all Spireas. It is a beautiful ornament for the lawn at any season, but when in flower it is a complete fountain of white bloom, the foliage hardly showing. Perfectly hardy and an early bloomer.

	Each	Per 10	Per 100
18 to 24 in.	\$0.20	\$1.50	\$12.00
2 to 3 ft.30	2.00	16.00
3 to 4 ft.40	3.00	25.00

SYRINGA—Lilac

Lilacs are decidedly most effective when planted in groups. They produce an abundance of showy flowers in spring and early summer.

S. japonica (Japanese Tree Lilac). M. A species from Japan, becoming a good-sized tree. Foliage dark green, glossy; leathery; flowers creamy-white, odorless, in great panicles. A month later than other lilacs.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.60	\$5.00	\$ 45.00
3 to 4 feet.....	.70	6.00	50.00

S. josikea (Hungarian Lilac). M. A fine distinct species of tree-like growth, with dark shining leaves and purple flowers in June, after the other Lilacs have done blooming. Esteemed for its fine habit and foliage.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.65	\$5.50	\$ 50.00
3 to 4 feet.....	.75	6.50	62.00

S. persica (Persian Lilac)). Its pale lilac flowers are very fragrant and are borne in large, loose panicles in late spring.

	Each	Per 10	Per 100
3 to 4 feet	\$0.60	\$5.00	\$45.00

S. persica alba. White form of Persian Lilac.

	Each	Per 10	Per 100
2 to 3 feet	\$1.00	\$9.00	

S. rothomagensis (chlnensis) (Rouen Lilac). M. A distinct hybrid variety, with reddish flowers; panicles of great size and very abundant.

	Each	Per 10	Per 100
2 to 3 feet	\$0.45	\$3.50	\$30.00
3 to 4 feet55	4.50	40.00

S. villosa (Japan Lilac). M. A species from Japan. Large branching panicles; flowers light purple in bud, white when open, fragrant. Especially valuable for late flowering. Single.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.40	\$3.00	\$ 25.00
3 to 4 feet.....	.50	4.00	35.00

S. vulgaris (Common Purple Lilac). M. Large shrub with larger leaves and flowers than above. Flowers bluish-purple.

	Each	Per 10	Per 100
2 to 3 feet.....	\$0.35	\$2.50	\$22.00
3 to 4 feet.....	.45	3.50	32.00
4 to 5 feet.....	.60	5.00	45.00

S. vulgaris alba (Common White Lilac). M. Flowers in slender panicles, pure white and fragrant.

	Each	Per 10	Per 100
2 to 3 feet	\$0.60	\$5.00	\$45.00
3 to 4 feet75	6.50	60.00

STEPHANANDRA

S. flexuosa. D. A beautiful low shrub with very ornamental deep green, dense foliage. Flowers insignificant, in small terminal panicles. Freezes back during the winter.

	Each	Per 10	Per 100
18 to 24 in.	\$0.50	4.00	36.00
2 to 3 feet60	5.00	46.00

SYMPHORICARPUS—St. Peter's Wort or Waxberry

S. racemosus (Snowberry). S. Flowers inconspicuous, rose-colored in June and July; leaves thin, dark green; fruits large, milk-white, clustered; persistent until late in winter.

S. molle. Spreading Snowberry. Same as Racemosus, with more spreading branches.

	Each	Per 10	Per 100
18 to 24 in.	\$0.25	\$2.00	\$15.00
2 to 3 feet35	2.50	20.00

A Lilac Hedge will screen unsightly back yards effectively at small cost

Named Varieties of Lilacs

The following list of Lilacs have larger spikes of flowers and are to be had in wider range of color than the common Lilacs.

Single and double varieties:	Each	Per 10	Per 100
2 to 3 feet.....	\$0.75	\$6.50	\$ 60.00
3 to 4 feet.....	.85	7.50	70.00

Alphonse Lavalie. Beautiful blue, shading violet. Double.

Belle de Nancy. Great panicles of satiny rose, almost white center. Double.

Charles X. Large trusses, rather loose, reddish purple.

G. Chas. Jolly. Double dark red.

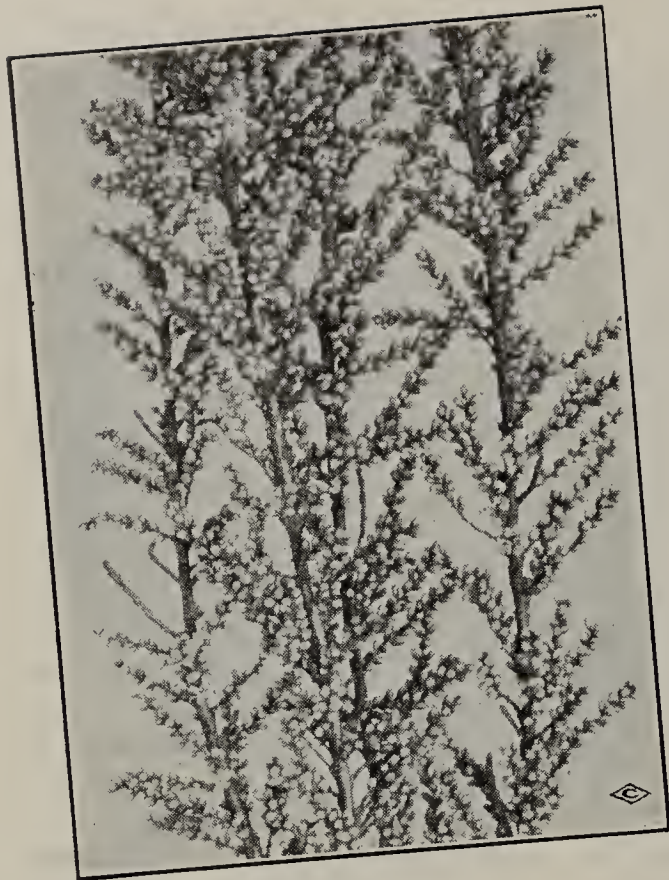

Marie Legraye. Single white flowers in large panicles.

Michael Buchner. Double flower of pale lilac.

Mad. Lemolne. Pure white. Double. President Grevy. Beautiful blue flowers in huge panicles.

Souvenir de Ludwig Spaeth. Single dark purplish-blue flowers in long panicles.

Tamarix

TAMARIX—Tamarisk

Prices unless otherwise noted:

	Each	Per 10	Per 100
2 to 3 feet	\$0.45	\$3.50	\$30.00
3 to 4 feet	.55	4.50	40.00
4 to 5 feet	.65	5.50	50.00
T. odessana (Caspian Tamarisk). A new variety with pale rose flowers, blooming earlier than Gallica.			
T. tetrandia purpurea . L. Of dwarfer and more dense growth than T. Africana. Purplish-pink flowers in midsummer.			
T. africana . L. A tall, graceful shrub, delicate small rosy-purple flowers, produced in spikes. Green foliage.			
T. gallica (French Tamarix). L. Delicate pink or white flowers in slender paniced racemes; leaves bluish-green. An exceedingly pretty species.			
T. hispida . L. In July the branches are covered on the half of their length with numerous inflorescences of large flowers of a nice bright carmine. Foliage silvery. Spreading habit.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.50	\$4.00	\$35.00
3 to 4 feet	.60	5.00	45.00

VIBURNUM—Snowball

V. carlesii . A valuable recent introduction from Korea, producing its delicate, spice-scented flowers in May and June. The buds before expanding are an attractive pink, developing into Bouvardia-like umbels of pure white. Flowers preserve their perfect form and purity of color an unusually long time.			
	Each	Per 10	Per 100
15 to 18 inches	\$0.95	\$8.50	\$80.00
18 to 24 inches	1.40	12.00
24 to 30 inches, B. & B.	2.50	22.00
V. dentatum (Arrowwood). M. A fine shrub for massing for foliage effect. Flowers greenish-white.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.45	\$3.50	\$30.00
3 to 4 feet	.55	4.50	40.00
V. lantana (Wayfaring Tree). L. A large robust shrub, with soft, heavy leaves and large clusters of white flowers in May, succeeded with red fruit; retains its foliage very late.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.55	\$4.50	\$40.00
3 to 4 feet	.65	5.50	50.00
V. lentago (Sheepberry). L. Foliage light glossy green. Flowers creamy white, very fragrant.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.60	\$5.00	\$45.00
V. opulus (European High Bush Cranberry). Very ornamental. Berries resembling small cranberries, hang until destroyed by frost in late fall.			
	Each	Per 10	Per 100
18 to 24 inches	\$0.35	\$2.50	\$20.00
2 to 3 feet	.45	3.50	30.00
3 to 4 feet	.55	4.50	40.00
V. opulus sterile (Common Snowball). L. An old and well-known shrub, bearing large balls of pure white flowers.			
	Each	Per 10	Per 100
18 to 24 inches	\$0.35	\$2.50	\$20.00
2 to 3 feet	.45	3.50	30.00
3 to 4 feet	.55	4.50	40.00

V. tomentosum . M. The single form of V. Plicatum; flowers pure white, borne along the branches in flat cymes, in the greatest profusion early in June.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.65	\$5.50	\$50.00
3 to 4 feet	.75	6.50	60.00
V. tomentosum plicatum (Japan Snowball). M. A rare and exceedingly beautiful species of Japan; flowers in large, globular heads; pure white, hanging long on the bush.			
	Each	Per 10	Per 100
18 to 24 inches	\$0.65	\$5.50	\$50.00
2 to 3 feet	.75	6.50	60.00

VITEX—Chaste Tree

Vitex agnus castus. A graceful shrub, growing from 5 to 6 feet high, with dense spikes 6 to 8 inches long, of lilac-colored flowers late in summer.

V. agnus castus alba . Same as Agnus Castus in growth, but has white flowers.			
	Each	Per 10	Per 100
2 to 3 feet	\$0.50	\$4.00	\$35.00

ORNAMENTAL VINES *and* CLIMBERS

Vines are often used for covering stone walls, rocky banks, and steep slopes, where they are not only beautiful, but the fragrance from the flowers is pleasing. Innumerable uses for vines will suggest themselves when improving a property.

AKEBIA

A. quinata. A beautiful, hardy Japanese vine, with unique foliage and chocolate purple flowers of delightful fragrance in large clusters.

	Each	Per 10	Per 100
2-year-old plants	\$0.55	\$4.50	40.00

AMPELOPSIS

A. quinquefolia (American Ivy or Virginia Creeper). Has beautiful digitate leaves that become rich crimson in autumn; a very rapid grower. One of the finest vines for covering walls, verandas or trunks of trees.

	Each	Per 10	Per 100
2-year-old plants.....	\$0.35	\$2.50	\$ 22.00

A. quinquefolia engelmanni (Engelmanni Ivy). Shorter, jointed than Quiquefolia. A good climber; grows 6 to 10 feet in a season.

	Each	Per 10	Per 100
2-year-old-plants	\$0.35	\$2.50	\$22.00

A. tricuspidata veitchi (Boston Ivy). Of Japanese origin; entirely hardy, with foliage turning brilliant red in autumn. It clings tightly to walls, and is unsurpassed as a basket or vase plant.

	Each	Per 10	Per 100
2-year-old plants.....	\$0.45	\$3.50	\$ 30.00
3-year-old No. 1.....	.55	4.50	40.00

BIGNONIA—Trumpet Vine

B. radicans (American Climbing Trumpet Vine). A splendid, hardy climbing plant, with large trumpet-shaped scarlet flowers in August.

	Each	Per 10	Per 100
2-year-old plants.....	\$0.35	\$2.50	\$ 22.00

VINES *for climbing*

On porch, trellis, fence or wall. Those types which cling to wood, stone, brick or stucco are designated by a (*); the rest twine or need support.

EUONYMUS

E. radicans (Winter Creeper). An evergreen vine, with dark green foliage; will cling to walls like ivy.

Each Per 10 Per 100

15 to 18 inches, 2-years.....\$0.45 \$3.50 \$ 30.00

E. radicans variegata. An evergreen vine with variegated foliage that clings to walls like ivy.

Each Per 10 Per 100

4-inch pot plants, strong\$0.55 \$4.50 \$40.00

E. radicans vegeta (Big-Leafed Winter Creeper). A strong growing variety with larger leaves than the type, and producing bright orange-red berries which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequalled.

Each Per 10 Per 100

15 to 18 inches, 2 years\$0.55 \$4.50 \$40.00

HEDERA—Ivy

The Ivies are evergreens and frequently suffer from exposure to the bright sunlight in winter. For this reason the north side of a wall or building is a better situation than the south.

H. canariensis (Irish Ivy). A well known sort, for covering graves, also for clinging to brick walls.

Each Per 10

3-inch pots, strong plants, 2 canes.....\$0.40 \$3.00

H. haagenbacki. Very decorative vine for indoors, on account of the variegated foliage. Improvement on the Hedra Helix.

Each Per dz.

3-inch pots\$0.30 \$3.00

4-inch pots50 5.00

H. helix (English Ivy). A familiar evergreen vine, dark green leaves, favors shady location. Suitable to cover buildings, rocks, graves, and places where grass will not grow.

Each Per 10 Per 100

3-inch pots, strong plants.....\$0.25 \$2.00 \$ 15.00

4-inch pots, extra plants..... .30 2.50 20.00

LONICERA—Honeysuckle

L. japonica aurea reticulata. A variety with beautifully variegated foliage; leaves netted and veined with clear yellow; flowers yellow and fragrant.

Each Per 10 Per 100

2-year, strong plants\$0.50 \$4.00 \$35.00

L. japonica halleana (Hall's Honeysuckle). Color white, changing to yellow, very fragrant, blooms from June to November.

Each Per 10 Per 100

2-year, strong plants\$0.40 \$3.00 \$20.00

L. sempervirens (Scarlet Trumpet). A strong, rapid climber; blooms very freely the entire season; bright red, trumpet-shaped flowers.

Each Per 10 Per 100

2-year, strong plants\$0.50 \$4.00 \$35.00

L. periclymenum belgica (Monthly. Fragrant). A fine rapid growing variety; flowers large and very fragrant; color red and yellow; a constant bloomer.

Each Per 10 Per 100

2-year, strong plants\$0.55 \$4.50 \$40.00

LYCIUM—Matrimony Vine

L. chinensis. Very hardy, grows anywhere, slender, drooping branches. Flowers small, pink and purple, from June to September, and are then succeeded by a profusion of bright scarlet and orange fruits through late fall and winter.

Each Per 10 Per 100

2 to 3 feet.....\$0.35 \$ 2.50 \$20.00

PASSIFLORA—Passion Flower—Annual

P. pfodtli. The best variety for outdoors in summer; flowers light blue, suffused with rose and borne quite freely even on small plants.

Each Per Doz.

Strong plants\$0.25 \$2.50

POLYGONUM—Silver Lace Vine

P. auberti. One of the most desirable flowering climbers. The plant is of strong, vigorous growth, attaining a height of 25 feet or more, producing through the summer and fall great foamy sprays of white flowers.

Each Per 10 Per 100

Strong plants\$0.70 \$ 6.00 \$ 55.00

PUERARIA THUNBERGIANA—Kudzu Vine (Dolichos)

P. thunbergiana. This is without a doubt the fastest-growing vine we know of for covering arbors and trellises, also for covering rocky slopes.

Each Per 10 Per 100

2-year-old plants\$0.30 \$2.00 \$18.00

WISTARIA

The Wistaria is an old decorative vine. The long, twining branches bear great sprays of foliage, as well as a profuse bloomer.

W. sinensis (Chinese). Flowers in clusters pale blue, sometimes gives a second crop of flowers in the fall.

Each Per 10 Per 100

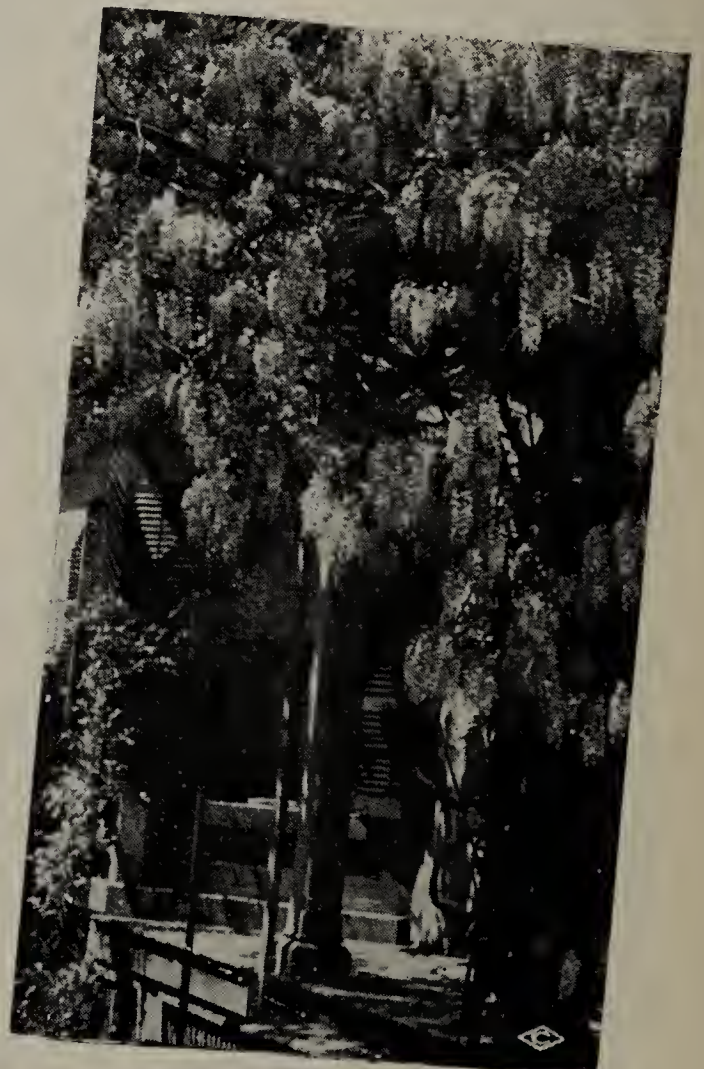

3-year-old plants (Grafts).....\$0.75 \$6.50 \$60.00

W. sinensis alba. Of similar habit to Chinensis, with pure white flowers.

Each Per 10 Per 100

2-year-old plants (Grafts).....\$0.80 \$7.00 \$65.00

Our Wistaria are grown from layers or grafts from blooming plants, hence are guaranteed to bloom.

Wistaria

EVERGREENS

create an air of distinction
and charm for any home

THE swing to Evergreens during the past few years has been nothing short of phenomenal, and for this reason there is much shabby stock on the market. We have no desire to discredit any reputable grower, but we do urge anyone contemplating the purchase of Evergreens to buy them from some concern that can provide true to name varieties that will mature as you expect.

Evergreens have no equal for producing a formal effect and since they are green all winter long they add much to the beauty of any home.

Evergreens are not all alike. Do not confuse the plants listed here with seedling stock offered by some nurseries. To develop a specimen tree 5 to 8 years are required. You will, therefore, find our prices right.

Irish Juniper

Colorado Blue Spruce

Black Hills Spruce

B. orientalis (Common Chinese Arborvitae). A tall fast-growing tree but not so compact.

Each Per 10

Foundation Evergreen Collections

Here are five of the most beautiful evergreens, especially desirable for foundation plantings—1 *Biota Aurea Conspicua*, 36 to 42 inches high, 2 *Juniper Pfitzeriana*, 18 to 24 inches high; 1 *Siberian Arborvitae*, 24 inches high, and 1 *Globe Arborvitae*, 18 to 24 inches high—a collection that would cost \$17.00 if bought individually—but priced especially in this collection at.....

\$13.00

HOW TO PLANT EVERGREENS

1. Dig a hole several inches larger than the ball of the plant to be planted.

2. Set tree in hole a trifle lower than it stood in the nursery.

3. Fill good top soil up around ball. Pack firmly with feet or settle by filling hole with water.

4. Loosen burlap at top of ball and roll back or cut off.

5. Fill hole with soil. Pack firmly and leave top of ground covered with loose earth, or better, mulch with straw.

B. orientalis bonita. Very dwarf, round, compact, fine foliage.

	Each	Per 10
18 to 24 inches, B. & B.	\$2.25	\$20.00
24 to 30 inches, B. & B.	3.00	27.50

B. orientalis compacta (Green). A compact form of Chinese Arborvitae. Foliage very dark green. Fine where low-growing, compact tree is desired.

	Each	Per 10
18 to 24 inches, B. & B.	\$2.00	\$17.50

5 to 6 feet, B. & B.	8.50	82.50

JUNIPERUS—Juniper or Cedar

J. chinensis (Chinese Juniper). Similar in habit to common red cedar, but has a more pyramidal effect and retains a brighter green color.

	Each	Per 10
4 to 5 feet, B. & B.	\$6.00	\$57.50

J. chinensis pfitzeriana (Pfitzer's Juniper). Very distinct, being of a striking, graceful habit; the color of foliage a bright, silvery green; perfectly hardy.

	Each	Per 10
18 to 24 inches, B. & B.	\$2.25	\$20.00
24 to 30 inches, B. & B.	3.00	27.50
30 to 36 inches, B. & B.	4.50	42.50
36 to 42 inches, B. & B.	6.00	57.50
42 to 48 inches, B. & B.	7.50	72.50

J. communis columnaris (Columnar English Juniper). A fine and distinct type of English Juniper, growing in dense column without shearing.

3½ to 4 feet, B. & B. \$7.50

J. communis depressa (Canadensis or Prostrate Juniper). Low, spreading form of Juniper, extending along the ground, often to a distance of six to seven feet. Average height to which it grows is about 4 feet. May be held back by periodical pruning.

	Each	Per 10
18 to 24 inches, B. & B.	\$2.75	\$25.00
24 to 30 inches, B. & B.	3.50	32.50
30 to 36 inches, B. & B.	5.00	47.50

J. communis depressa aurea—2 feet. Similar to the above, but with golden foliage.

	Each	Per 10
15 to 18 inches, B. & B.	\$2.50	\$22.50
18 to 24 inches, B. & B.	3.50	32.50

J. communis hibernica (Irish Juniper). One of the most popular Junipers known. Rigidly upright and formal in character, resembling a green column.

	Each	Per 10
2 to 3-foot specimens, B. & B.	\$2.75	\$25.00
3 to 4 feet, B. & B.	3.75	35.00

J. communis suecica (Swedish Juniper). A narrow pyramidal tree, with grayish green foliage. Very hardy, resembling the Irish Juniper.

	Each	Per 10
2 to 3 feet, B. & B.	\$3.75	\$35.00
3 to 4 feet, B. & B.	5.00	47.50

J. excelsa stricta (Greek Juniper). A very compact little evergreen of pyramidal habit. Foliage dark green.

	Each	Per 10
15 to 18 inches, B. & B.	\$1.75	\$15.00
18 to 24 inches, B. & B.	2.50	22.50
24 to 30 inches, B. & B.	3.75	35.00
30 to 36 inches, B. & B.	5.50	52.00

J. horizontalis glauca (Creeping Juniper). Low-growing tree of spreading habit. Used in rockeries, or on terrace where a low tree is desired. Color is of a bluish cast.

	Each	Per 10
18 to 24 inches, B. & B.	\$4.75	\$45.00
24 to 30 inches, B. & B.	5.75	55.00
30 to 36 inches, B. & B.	7.50	72.50

J. sabina (Savin Juniper). A spreading form, with deep, dark, green foliage. Very valuable for rockeries, grouping and border planting.

	Each	Per 10
15 to 18 inches, B. & B.	\$2.50	\$22.50
18 to 24 inches, B. & B.	3.25	30.00
24 to 30 inches, B. & B.	4.00	37.50
30 to 36 inches, B. & B.	5.00	47.50

J. sabina tamariscifolia (Gray Carpet Juniper). A distinct trailing variety of Sabina. Fine for edging evergreen groups.

	Each	Per 10
15 to 18 inches, B. & B.	\$3.50	\$32.50
18 to 24 inches, B. & B.	4.25	40.00
24 to 30 inches, B. & B.	5.00	47.50

J. scopulorum (Silver Cedar). A very narrow, compact and symmetrical form of Juniper. Silvery blue and retains its color throughout the season.

	Each	Per 10
3 to 4 feet, B. & B.	\$6.75	\$65.00
4 to 5 feet, B. & B.	8.00	77.50

J. virginiana (Red Cedar). One of the most valuable trees for screens and windbreaks; perfectly hardy; too well known to need description. Our trees are all extra well shaped and have been several times transplanted.

	Each	Per 10
2 to 3 feet, B. & B.	\$2.50	\$22.50
3 to 4 feet, B. & B.	3.50	32.50
4 to 5 feet, B. & B.	4.95	47.00
5 to 6 feet, B. & B.	7.00	67.50
6 to 7 feet, B. & B.	10.00	95.00

J. virginiana cannarti (Cannarti Juniper). Of pyramidal habit, branches graceful, of a pleasing dark green. A beautiful tree in every way.

	Each	Per 10
3 to 4 feet, B. & B.	\$5.75	\$55.00
4 to 5 feet, B. & B.	7.75	75.00
5 to 6 feet, B. & B.	10.00	95.00

J. virginiana elegantissima Lee (Gold-tip Red Cedar)—15 feet. A broad, bushy tree, having pendulous green foliage tipped with rich, creamy gold. A rich, entrancing novelty.

	Each	Per 10
3 to 3½ feet, B. & B.	\$6.50	\$62.50

Plantings Like This Are Always In Good Taste

J. virginiana glauca (Silvery Red Cedar). Fine, vigorous grower; cone-shaped, and having a peculiar whitish color.

	Each	Per 10
2½ to 3 feet, B. & B.....	\$4.50	\$42.50
3 to 4 feet, B. & B.....	7.00	67.50
4 to 5 feet, B. & B.....	8.00	77.50
5 to 6 feet, B. & B.....	9.00	87.50
6 to 7 feet, B. & B.....	10.50	100.00

J. virginiana pyramidiformla hilll (Hill Dundee Juniper). Bluish-gray in the spring and summer and it changes to a plum-like color in the fall and winter.

	Each	Per 10
3 to 3½ feet, B. & B.....	\$6.50	\$62.50

J. vlrginiana schottl (Schotti Juniper). This variety is easily distinguished by its bright pea-green color. Its growth is very symmetrical and upright. Producing light blue and silvery colored berries in season, which are very attractive.

	Each	Per 10
30 to 36 inches, B. & B.....	\$5.25	\$50.00
3 to 4 feet, B. & B.....	6.25	60.00

Creeping Juniper

PICEA—Spruce

P. canadensis alba (White Spruce). Of compact, pyramidal form, and greater symmetry than that of the Norway Spruce, but possibly of less vigorous growth; elegant silvery foliage.

	Each	Per 10
30 to 36 inches, B. & B..	\$3.00	\$27.50
3 to 4 feet, B. & B.....	3.75	35.00
4 to 5 feet, B. & B.....	4.75	45.00

P. canadensis albertiana (Black Hills Spruce). In habit of growth something like P. Alba, except that foliage is of a bluish-green. A very pretty, compact growing evergreen.

	Each	Per 10
12 to 15 inches, B. & B..	\$1.50	\$12.50
15 to 18 inches, B. & B..	2.00	17.50
18 to 24 inches, B. & B..	2.50	22.50
24 to 30 inches, B. & B..	3.50	32.50
30 to 36 inches, B. & B..	4.50	42.50
3 to 4 feet, B. & B.....	5.25	50.00
4 to 5 feet, B. & B.....	6.25	60.00

P. excelsa (Norway Spruce). Rapid in growth, gracefully drooping in habit, dense in structure, regular in outline and perfectly hardy.

	Each	Per 10
18 to 24 inches, B. & B..	\$1.50	\$12.50
2 to 2½ feet, B. & B....	2.00	17.50
2½ to 3 feet, B. & B....	2.50	22.50

	Each	Per 10
3 to 4 feet, B. & B.....	\$3.50	\$32.50
4 to 5 feet, B. & B.....	4.00	37.50
5 to 6 feet, B. & B.....	6.25	60.00
6 to 7 feet, B. & B.....	8.50	82.50

P. pungens (Green Colorado Spruce). Of pyramidal habit and compact growth; leaves bluish-green. A free grower and perfectly hardy. This is the common variety.

	Each	Per 10
3 to 4 feet, B. & B.....	\$8.00	\$77.50
4 to 5 feet, B. & B.....	10.00	97.50

P. pungens glauca (Colorado Blue Spruce). (True blue color). This variety is the same in habit as the green form, but the color is of a beautiful blue, which holds well all through the year. We have these in limited quantity this season and can only supply as long as stock lasts.

	Each	Per 10
18 inches, B. & B.....	\$4.50	\$42.50
24 inches, B. & B.....	6.25	60.00
30 inches, B. & B.....	8.50	82.50
3 feet, B. & B.....	12.00	115.00

P. pungens Moerhelmer (Moerheim's Blue Spruce). Similar to Kosters.

	Each	Per 10
3 to 3½ ft.....	\$25.00	\$225.00
4 to 4½ ft.....	35.00	325.00
5 to 5½ ft.....	50.00	450.00

PINUS—Pine

P. nigra austriaca (Austrian Pine). From Central Europe. Leaves and needles stiff and dark green. Hardy everywhere and one of the most valuable conifers for windbreaks, belts, etc.

	Each	Per 10
2 to 3 ft., B. & B.....	\$3.00	\$27.50
3 to 4 ft., B. & B.....	4.00	37.50
4 to 5 ft., B. & B.....	6.00	57.50

P. montana mughus (Dwarf Mountain Pine). Very distinct, leaves short, stiff, a little twisted and thickly distributed over the branches; does not grow tall, but spreads over the ground, generally assuming a globular form; very dense.

	Each	Per 10
12 to 15 in., B. & B.....	\$1.75	\$15.00
15 to 18 in., B. & B.....	2.50	22.50
18 to 24 in., B. & B.....	3.00	27.50
24 to 30 in., B. & B.....	4.50	42.50

P. silvestris (Scotch Pine). A rapid grower, very hardy, from the central portion of Europe, with short, rigid, light green leaves. Very valuable for screens and for masses.

	Each	Per 10
2 to 3 ft., B. & B.....	\$2.50	\$22.50
3 to 4 ft., B. & B.....	3.50	32.50
4 to 5 ft., B. & B.....	4.25	40.00
5 to 6 ft., B. & B.....	5.00	47.50
6 to 7 ft., B. & B.....	7.50	70.00

Care and After-Care

The common error in planting about the foundation is too close planting with the idea of immediate effect. Space wide enough to permit development.

Pruning should consist principally of the shearing or clipping of the terminal growth in the spring just when the new growth appears. This keeps your trees compact and once they get to the height you want them they can be kept this way like a hedge. Don't prune too late in the summer.

Lawn trees are better left to develop naturally. Pruning is not necessary except to shape them up.

Never top or cut an evergreen below the point where it is showing green foliage. Always leave a fringe of foliage on the tips of the branches.

The dead that comes inside the trees in the fall is natural. They shed this old growth about this time. Shearing in the summer usually causes the trees to cover this unsightliness.

Savin Junlper In Foreground

P. strobus (White Pine). An old and well known native tree of rapid growth and entirely hardy.

Each Per 10

3 to 4 ft., B. & B.\$3.00 \$27.50
4 to 5 ft., B. & B. 4.00 37.50

On account of embargo this variety cannot be shipped outside of Missouri.

PSEUDOTSUGA—Fir

P. douglasii (Douglas Fir). Large, conical form; branches spreading, horizontal; leaves light green above, glaucous below.

Each Per 10

2 to 3 ft., B. & B.\$4.00 \$37.50
3 to 4 ft., B. & B. 5.00 47.50

RETINISPORA—Cypress

R. plumosa. An exceedingly handsome acorn-shaped evergreen, of medium tall growth, from Japan, with feathery light green foliage.

Each Per 10

24 to 30 in., B. & B. ..\$ 3.00 \$ 27.50
3 to 4 ft., B. & B. 5.25 50.00
4 to 5 ft., B. & B. 8.75 85.00
5 to 6 ft., B. & B. 10.50 100.00

R. plumosa aurea. Same habit as plumosa; a plant of great beauty; foliage soft plume-like, of a golden yellow color; close and compact habit.

Each Per 10

24 to 30 in., B. & B. ..\$ 3.00 \$ 27.50
3 to 4 ft., B. & B. 5.25 50.00
4 to 5 ft., B. & B. 8.75 85.00
5 to 6 ft., B. & B. 10.50 100.00

THUYA—Arborvitae

T. occidentalis (American Arborvitae). A well known native species of great value. It forms an upright conical tree of only medium size, and is especially valuable for screens and hedges.

Each Per 10

24 to 30 in., B. & B.\$2.00 \$17.50
30 to 36 in., B. & B. 2.75 25.00
3 to 4 ft., B. & B. 3.50 32.50
4 to 5 ft., B. & B. 4.50 42.50
5 to 6 ft., B. & B. 5.00 47.50

T. occidentalis globosa (Globe Arborvitae). Same shade of green as Pyramidalis.

Each Per 10

15 in. wide and 15 in. high, B. & B.\$2.00 \$17.50
18 in. wide and 18 in. high, B. & B. 3.00 27.50

T. occidentalis hoveyi (Hovey's Arborvitae). Dense, slow growing, foliage light green.

Each Per 10

24 to 30 in., B. & B.\$4.00 \$37.50
30 to 36 in., B. & B. 5.50 52.50

T. occidentalis pyramidalis (Pyramidalis Arborvitae). Of upright pyramidal compact habit. Very desirable.

Each Per 10

2 to 2½ ft., B. & B.\$3.00 \$27.50
2½ to 3 ft., B. & B. 3.75 35.00
3 to 4 ft., B. & B. 5.00 47.50
4 to 5 ft., B. & B. 6.00 62.50

T. occidentalis wareana (Siberian Arborvitae). Forms a dense, broad, regular pyramid with dark green foliage. Very hardy.

Each Per 10

18 to 24 in., B. & B.\$2.25 \$20.00
24 to 30 in., B. & B. 3.00 27.50
30 to 36 in., B. & B. 4.00 37.50
36 to 42 in., B. & B. 5.00 47.50

TSUGA—Hemlock

T. canadensis. A native species of undoubted worth and beauty. Entirely hardy, with drooping branches and dense habit.

Each Per 10

24 to 30 in., B. & B.\$ 4.25 \$ 40.00

EVERGREEN SHRUBS

Evergreen shrubs are coming into use more and more, as they are so desirable in landscape work. The foliage helps out and enlivens the bareness of deciduous trees and shrubs in winter. They are all fond of shady places and are suitable for north sides of houses, garages and north hillsides.

The soil for this class of shrubs should be carefully prepared with leaf mold, peaty soil, and should be mulched annually with well decomposed manure or partly decomposed forest leaves.

AZALEA

A. amoena. A bushy, dwarf grower with small green leaves that deepen to a lustrous coppery hue in winter. In April or May the whole plant is covered with a mass of brilliant, claret-colored flowers that retain their beauty for several weeks. Very ornamental.

Each Per 10

12 to 15 in.\$3.00 \$27.50

A. hinodegiri. A bright scarlet form of the well known Azalea Amoena, but far surpasses it in brilliancy and general beauty; a profuse bloomer; foliage evergreen.

Each Per 10

12-in. plants, set with flower buds\$4.00 \$37.50

A. yodogawa. 3 to 4 inch. Double pinkish-lavender flowers in May. Quite hardy and of exceptional merit. Bushy habit.

Each Per 10

18 to 24 in.\$4.50 \$42.50

ILEX—Holly

The Hollies are coming into demand as people get to know what splendid ornamental plants they are. The foliage is always beautiful, the flowers interesting and the fruits ornamental. A group of Hollies is always a source of pleasure.

I. opaca (American Holly). This is our native Holly, but is a rare plant in our American nurseries. Only a limited stock on hand.

Each Per 10

2 to 3 ft., B. & B.\$ 6.50 \$ 60.00
3 to 4 ft., B. & B. 9.00 85.00
4 to 5 ft., B. & B. 10.00 95.00
5 to 6 ft., B. & B. 14.00

I. verticillata. See Deciduous Shrubs.

MAHONIA—Holly Grape

Mahonia aquifolia (Holly-Leaved Mahonia). A native species of medium size with purplish, shiny, prickly leaves, and showy, bright yellow flowers in May, succeeded by bluish berries. Its glossy foliage and neat habit render it a very popular plant for decorative purposes.

Each Per 10

18 to 24 in., B. & B.\$1.85 \$16.00
24 to 30 in., B. & B. 2.50 22.50
30 to 36 in., B. & B. 3.50 32.50

Mahonia Japonica (Japanese). Leaves very broad, flowers yellow, in long spikes, succeeded by dark purple berries. A magnificent shrub.

Each Per 10

18 to 24 in. (balled and burlapped)\$3.25 \$27.50

Azalea

WEBER'S CHOICE ROSES

Nothing that we can say will add to the popularity of the rose, the most prized of all flowers. Those whose taste tends toward the beauties of nature cannot help classing the rose at the head of the ornamentals.

Realizing the utmost importance of the rose among our nursery products, we have been especially careful in our selection and treatment. Our roses are chosen and grown with expert care, and we feel sure that the results of our efforts will shine forth in your garden, making it a spot of delightful beauty and the envy of your fellow rose growers.

CULTURAL DIRECTIONS

Dig out the bed to a depth of 12 inches, scattering 3 to 4 inches of good top soil in the bottom of the trench. On top of this put well decayed manure to a depth of 4 to 5 inches and mix thoroughly with the top soil already in the trench. Then place good quality top soil over this until the bed is just a trifle higher than the surrounding ground. Set the rose bushes 2 to 3 feet apart each way, placing them a little deeper than they have been growing in the nursery row, as indicated by soil marks on the bark. All budded roses should be planted so that the place where the bud was inserted comes at least an inch or two beneath the surface of the new bed.

All classes of roses should be pruned severely at time of planting.

HYBRID PERPETUAL ROSES

ROSA HYBRIDA CIFERA

This class of roses is admirably suited for garden culture, for the formation of rose beds, hedges and permanent plantations, where hardy varieties of roses are desired. They are of easy culture and luxuriant in a deep, rich soil. They are benefited by mulching in the fall of the year. Plant two feet apart in beds.

American Beauty—Rich red.
Anna de Diesbach—Shell pink.
Baron de Bonstettin—Rich dark red.
Capt. Hayward—Bright scarlet.
Frau K. Druschke—One of the best Double White Roses.
General Jacquemlnot—Velvety crimson.
George Ahrendes—Bright carmine rose.
Hugh Dickson—Brilliant crimson, shaded scarlet.
J. B. Clark—Intense scarlet.
Mrs. John Laing—Bright shining pink.
Paul Neyron—Beautiful pink.
Ulrich Brunner—Brilliant cherry red.

EVERBLOOMING ROSES

Consisting of Hybrid Teas, Teas,
Bourbon, Hybrid Polyantha and
China or Bengal Roses

Letters H. T. denote Hybrid Tea Roses.

Letter T. denotes Tea Roses.

All varieties marked with a * can be furnished in pots.

This class of roses is suitable for general cultivation, as they are our very best roses, blooming continuously throughout the season. Require more care in winter protection than do the Hybrid Perpetuals in this climate and further north, but will repay the extra care in a goodly supply of fine flowers when roses of the hardy variety are scarce.

Protect for winter by hilling the soil up around crowns about 6 to 8 inches as soon as heavy freezing winter weather sets in. Cover this with well rotted manure or leaves.

Each	Per 10	Per 100
2-year, No. 1 plants (dormant).....	\$0.55	\$ 4.50 \$ 40.00

*Betty Uprichard. Semi-double, salmon-pink flowers stained with copper-pink on the outside.

*Columbia (H. T.). Peach-blow pink.

*Dame Edith Heien. One of the largest and most perfectly shaped pink Roses known. Blooms abundantly, with long, strong stems.

Duchess of Wellington. A low spreading but vigorous grower with long, saffron-yellow buds opening to very large light yellow.

*Edel (H. T.). Fine new white rose, of noble size, deep close-centered, with many petals; ivory at base, otherwise white.

*Eldorado. Large, solid, golden yellow; perfumed.

Etoile de France (H. T.). Clear red crimson velvet.

General-Superior Arnold Janssen. Tall, long-stemmed plants, with double, deep glowing pink or light red blooms.

Gorgeous. Coppery-pink, flushed and heavily veined with reddish-orange.

*Gruss an Tepiltz. Fiery crimson, very hardy.

*Jonkheer J. L. Mock (H. T.). Clear imperial pink.

*Kaiserin Augusta Victoria (H. T.). Creamy white, very fine.

- *Lady Hillingdon (T.). Deep apricot-yellow.
- *Laurent Carle (H. T.) Brilliant velvety carmine.
- *Los Angeles. Pale salmon-pink, richly shaded with deep rose and gold. Fragrant.
- Luxembourg. A rich yellow Tea Rose.
- *Mad. Butterfly (T.). Bright pink, apricot and gold. The buds are a rich Indian-red, yellow at base.
- Mad. Caroline Testout (H. T.). Brilliant satiny-rose.
- Mad. Edouard Herriot (H. T.). Coral-red shading of yellow terra cotta bronze and geranium-red, something of every color.
- *Mrs. Aaron Ward (H. T.). Indian-yellow.
- *Ophelia (H. T.). Brilliant salmon-flesh, shaded with rose on outer petals, with heart of peach pink.
- Premier (H. T.). Very deep rose color, the broad roll of the outer petals creating most interesting lights and shadows.
- *Radiance (H. T.). Brilliant rosy-carmine.
- *Red Radiance (H. T.). A bright, cheerful and even shade of pure red.
- *Souv. de Claudius Pernet (H. T.). Long buds, large flower, fast color of sunflower-yellow.
- *Sunburst (H. T.). Golden-orange.
- Wm. F. Dreer. A bright yellow flower of the Los Angeles type, shaded with coppery-pink.

Special COLLECTION of 5 Selected Roses

Contains 5 everblooming hybrid tea roses, each a different variety, our selection, 1 Climbing Dr. Van Fleet, and 1 Paul's Scarlet Climber—every one a rose you'll enjoy.

2-year No. 1 dormant
plants, postage paid.

Hugonis (Golden Rose of China). This is a valuable addi-
tion to our list of Roses. Every branch of the previous
year's growth is, in late April and early May, closely set
on both sides to the very tips with exquisitely beautiful,
single clear yellow flowers, almost concealing the foliage. Each Per 10 Per 100
2-year, No. 1.....\$0.50 \$4.00 \$ 35.00

Control Black Spot, Mildew and Chewing Insects

BY USING

POMO GREEN

Black spot is readily recognized by the leaves
turning yellow and quickly dropping off.

Mildew is a fungous disease that grows on the
surface of the leaves, shoots and buds, giving them
a whitish appearance, spreads very rapidly.

The control of fungous diseases is largely a mat-
ter of prevention. Keep plants covered with Pomo
Green.

1-lb. cans.....\$0.50

5-lb. cans..... 1.75

See page 46 for further details.

HARDY PERENNIALS

Our Perennials are mostly all potted in the fall and carried over winter in cold frames. This gives them an excellent root system and they start off in the spring the same as though they had been planted in the fall. We advise planting during the month of April. But many varieties can be planted all through the month of May.

There is a strong swing among flower lovers back to the Perennial Garden the past year or two. If you will read descriptions carefully you will discover many unusual blossoms as well as colors that will provide new interest for your "out-door living room."

ACHILLEA—Milfoil or Yarrow

- A. *millifolium roseum* (Rose-flowered Yarrow). Rosy-lilac, from June to August. Each, 20c; per doz., \$2.00.
- A. *ptarmica* "Boule de Neige" (Ball of Snow). Pure white, double flowers. Each, 20c; per doz., \$2.00.
- A. *ptarmica* fl. pl. (The Pearl). Pure white flowers all summer long. Each, 20c; per doz., \$2.00.

AEGOPODIUM—Bishop's Weed

Podagraria variegata. A rapid-growing plant, with neat, green and yellow variegated foliage, thriving in any soil; makes a fine border for a bed of shrubs or for covering waste ground. 1 foot. Each, 20c; per doz., \$2.00.

Asters

AGROSTEMMA—Rose Campion

- A. *coronaria* (Mullein Pink). Bright, rose-crimson. Each, 20c; per doz., \$2.00.

AJUGA—Bugleweed

- A. *reptans rubra*. Grows three to four inches high, with deep, purplish blue flowers in May and June. A suitable plant for rockery and for carpeting the ground particularly in shady places. Each, 20c; per doz., \$2.00; per 100, \$14.00.

ALYSSUM—Madwort

- A. *rostratum*. Prostrate almost shrubby variety, hoary grey all over. Flowers pale yellow. May to July. Each, 20c; per doz., \$2.00.
- A. *saxatile compactum* (Basket of Gold). Showy, bright yellow flowers; excellent for rock work. Each, 20c; per doz., \$2.00.

ANEMONE—Windflower

- A. *alba*. Purest single white, with yellow center. 2 to 3 feet.
- A. *Alice*. Large flowers of rose-pink, lilac center; excellent new variety. The best and strongest grower of all pink sorts.
- A. *hupehensis*. This is a sturdy, dwarf pink Anemone, growing 1½ to 2 feet high, and resembling the Japanese Anemone in many respects, is not so tall and is much more richly colored. Fine for rock garden use; blooms in early August and continues until frost. Will succeed in half shady places.
- A. *Queen Charlotte*. Abundant semi-double flowers, broad and perfectly formed; "La France" pink. 2 to 3 feet.
- A. *rubra*. Beautiful rosy red; stamens bright yellow.
- A. *whirlwind*. Excellent double white flowers. 2 to 3 feet. Each, 25c; per doz., \$2.50; per 100, \$18.00.

ANCHUSA—Sea Bugloss

- A. *italica*. "Dropmore variety." Rich gentian blue. Each, 20c per doz., \$2.00.

ANTHEMIS—Marguerite

- A. *keiwayi*. Daisy-like golden yellow blossoms all summer. Nice for cutting. Each, 20c; per doz., \$2.00.

AQUILEGIA—Columbine

- A. *Californica* hybrids. Exquisite flowers, yellow and orange shades.
- A. *canadensis*. Scarlet and yellow native species, one of the brightest.
- A. *chrysantha* (Golden Spurred). Golden yellow.
- A. *coerulea*. Bright blue and white flowers, long spurred.
- A. *hybrids* (Long Spurred). Large flowers with long spurs in blue, white, yellow, orange, scarlet and bright rose.
- A. *nivea grandiflora*. Beautiful, large, pure white. Each, 25c; per doz., \$2.50.

ARABIS (Rock Cress)

- A. *alpina*. Grows about a foot high, having dark, blue flowers. Each, 25c; per doz., \$2.50.

ARMERIA (Sea Pink or Thrift)

- A. *formosa*. Light pink, 12 inches. Each, 25c; per doz., \$2.50.

ARTEMESIA

- A. *abrotanum*. Dark green, finely cut foliage, with pleasant odor.
- A. *Silver King*. Silver foliage. Very good for color effect.
- A. *lactiflora* (Hawthorn scented). Elegantly cut, dark green foliage and terminated by panicles of Hawthorn-scented, creamy white Spirea-like light and graceful flowers. Each, 20c; per doz., \$2.00.

ASCELPIAS—Butterfly Weed

A. tuberosa. Very showy brilliant orange-colored flowers in July and September. Each, 30c; per doz., \$3.00.

ASTERS—Michaelmas Daisies

A. amethystinus. Amethyst blue, 3 ft.
A. feltham blue. Pretty shade of aniline blue, 2½ feet.
A. laevis. Light heliotrope, 4 feet.
A. novae angliae. Bright violet purple, 4 feet.
A. rosea supurbum. Rosy-red, 2½ ft.
A. tartaricus. Bluish violet, late, 6 ft.
A. white queen. Fine white, 4 feet. Each, 20c; per doz., \$2.00.
A. eyri. Rosy lilac. Each, 25c; per doz., \$2.50.

BAPTISIA—False Indigo

B. australis. Dark blue, pea-shaped flowers in June, suitable for hardy border or wild garden, attractive foliage. 2 to 3 feet. Each, 20c; per doz., \$2.00.

Coreopsis

BELLIS—Double English Daisy

B. perennis. Colors white and pink mixed. Each, 20c; per doz., \$2.00.

WINTER PROTECTION

Everything listed in this section is "hardy," but in varying degrees. For instance, Tritomas, Poppies and Shastas really need some protection. A light covering of coarse straw, manure or leaves (not over 2 or 3 inches deep) will give comfort to all kinds, and insure safety for the weak. After removing all stems and dead foliage, during the last days of November, or before severely cold weather sets in, apply this dressing, remembering to remove it gradually next spring, as soon as frost begins to leave the ground.

BOCCONIA—Plume Poppy

B. cordata. A noble plant, beautiful in foliage and with creamy white flowers during July and August. Each, 20c; per doz., \$2.00.

BOLTONIA—False Chamomile

Native hardy plant with single aster-like flowers. Blooms during the summer and autumn months.

B. asteroides. White.
B. latisquama. Lavender. Each, 20c; per doz., \$2.00.

CALLIRHOE (Poppy Mallow)

C. involucrata. Trailing plant with finely divided foliage and large saucer-shaped flowers of bright rosy crimson, with white center. Summer and fall. Each, 25c; per doz., \$2.50.

CAMPANULA—Bell Flower

C. medium (Canterbury Bells) Plants grown from the very best strain of seeds. Blue, rose, and white.

C. calycanthema blue (Cup and Saucer Canterbury Bells). A very fine clear shade of blue and flowers nice for cut flowers.

C. calycanthema white. Similar to the blue variety, only flowers are white.

C. pyramidalis (Chimney Bell Flower). An attractive plant for herbaceous borders, forming a perfect pyramid, crowned with large, silver-blue flowers. Each, 20c; per doz., \$2.00.

CARNATION—Hardy

A border plant for the hardy garden.

Grenadine. Pink.

Grenadine. Red.

Grenadine. White. Each, 20c; per doz., \$2.00.

CARYOPTERIS—Blue Spirea

See Shrubs.

CENTAUREA (Hardheads or Knapweed)

C. dealbata. Large and striking rose-pink flowers. June-July.

C. macrocephala. Large, thistle-like, golden-yellow flowers; useful for cutting and showy in borders. July and August. Each, 20c; per doz., \$2.00.

Columbine

CERASTIUM TOMENTOSUM—(Snow in Summer)

A desirable low-growing plant with silvery foliage and white flowers in June, suitable for rockery, or for carpeting.

Each, 25c; per doz., \$2.50; per 100, \$18.00.

CHELONE—(Shell Flower or Turtle Head)

C. lyoni. Heads of showy purplish-red flowers. 18 to 24-inch. Summer and fall. Each, 20c; per doz., \$2.00; per 100, \$14.00.

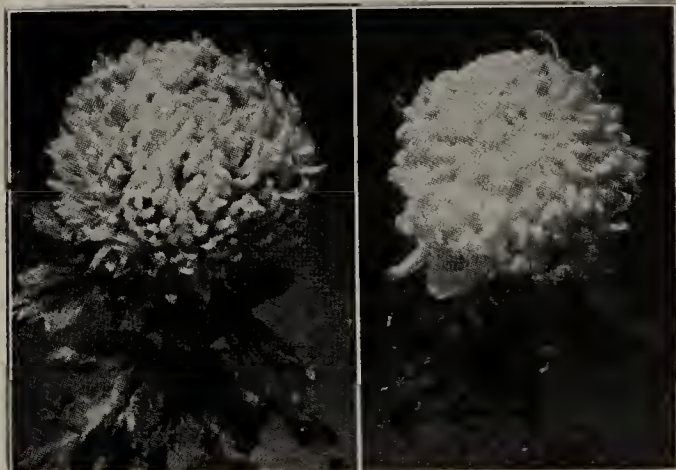

CHERIANTHUS—(Siberian Wall Flower)

C. allioni. A beautiful rock plant. Dazzling fiery orange flowers on stems about a foot high. Best used as a biennial as it frequently blooms itself to death. Each, 25c; per doz., \$2.50.

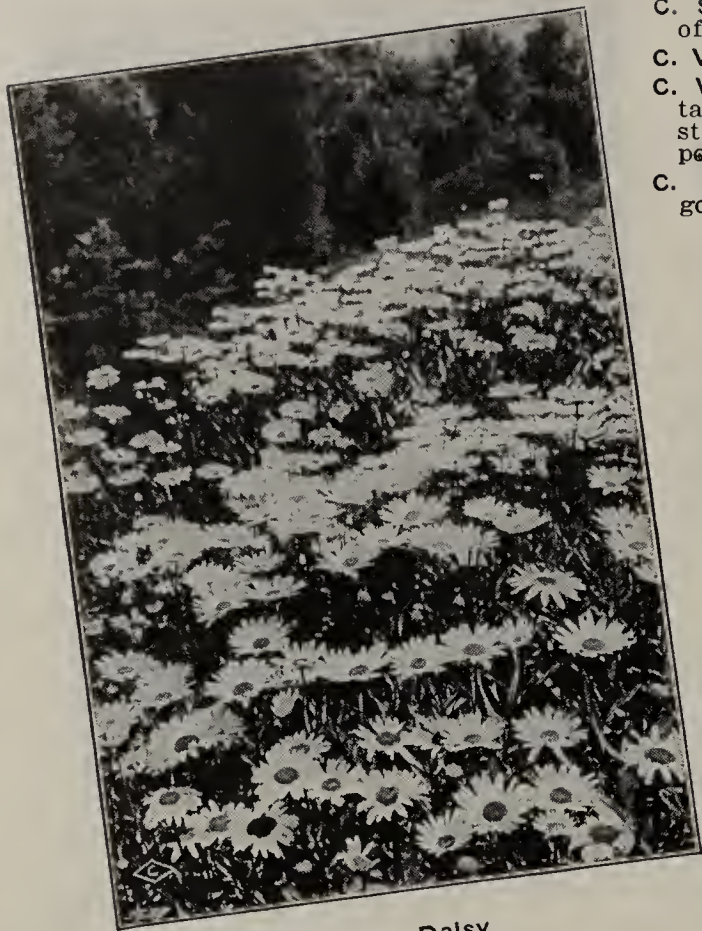

CHRYSANTHEMUM—Shasta Daisy

C. elder daisy. Early, an improved strain for Decoration day flowers. May and June, 2 feet.

C. hybridum (Alaska). Blooms all summer. Height, 12 to 15 inches. Color white. A great improvement over Shasta Daisy, being much larger, 4½ to 5 inches in diameter. Very free bloomer and much hardier than its parent. Each, 20c; per doz., \$2.00; per 100, \$14.00.

Chrysanthemum

Shasta Daisy

CHRYSANTHEMUM—Hardy

This class of perennials are the glory of the Autumn garden. They are the one remaining cheerful note after devastating frosts have destroyed all other flowers. Excellent for cutting.

For winter protection, do not cover with heavy mulch of manure, but rather use some light covering of straw or leaves.

Large Flowering Hardy Varieties

- C. *Adrianda*. Early golden-bronze. True pompon type.
- C. *Angelo*. A lovely free flowering very early pink variety; flowers good.
- C. *Capt. Cook*. Clear dark rose with brownish center. Tall grower. Late.
- C. *Carrie*. Clear yellow. Heavy bloomer. Medium growth. Early.
- C. *Champaign*. Bright ruby-red, wonderful color. Good.
- C. *Comoleta*. Tall-growing, late-flowering. Double yellow with reddish orange shadings.
- C. *Field of Snow*. Pure white with yellow center.
- C. *Firebird*. A beautiful bright red variety, fine for color effects; one we recommend to you for your garden.
- C. *Golden Crest*. Beautiful golden flowers, medium grower.
- C. *Golden Sun*. Medium grower; beautiful loose golden yellow flowers.
- C. *Idolph*. Free-flowering light rose-pink, very double with yellow center. 18-24 inches.
- C. *Japanese Yellow*. A beautiful yellow variety.
- C. *L'Argenteuillais*. Well shaped scarlet bronze flowers tipped with gold are produced in great quantities; medium height.
- C. *Lucifer*. Late flowering hardy variety; tall grower; ox-blood red flowers.
- C. *Marie Antoinette*. A late sure blooming sort, free-flowering, fine deep pink.
- C. *Mrs. Calvin Coolidge*. Brilliant crimson variety; a late blooming variety.
- C. *Mrs. H. Harrison*. Medium height, double pink flowers with white centers.
- C. *Murillo*. Good shade of pink, rather early, hardy, medium height.
- C. *Oconto*. The largest white variety; flowers often 4 to 5 inches across on good strong stems.

- C. *Snowclad*. Pure white. One of the best.
- C. *Victoria*. Pure white pompon.
- C. *White Doty*. Late flowering, tall and upright; very stiff stem. A splendid pure white pompon.
- C. *Yellow Normandie*. Bright golden yellow. Early.

BUTTON SHAPED POMPON

Ball of Snow. 1½ feet. Makes a round, symmetrical plant, dwarf and compact with pure white blooms. Mid-season. Pompon.

Little Barbee. Bright red; small button Pompon.

Rose Trevenna. 1½ feet. Deep rose. Late. Pompon. Each, 20c; per doz., \$2.00; per 100, \$14.00.

CONVALLARIA—Lily of the Valley

The popular little spring flower, for shady places. Large clumps.

Each, 35c; per doz., \$3.00. Dutch pips, per 25, \$1.25; per 100, \$3.50.

COREOPSIS—Tickseed

C. *lanceolata grandiflora*. The most popular summer cut flower, golden yellow. Should be in every garden. Each, 20c; per doz., \$1.50; per 100, \$10.00.

DELPHINIUM—Larkspur

- D. *belladonna*. Free bloomer, June to frost. Flowers turquoise blue. A fine summer cut-flower-plant.
- D. *bellamosum*. The dark blue form of the popular light blue *Belladonna* with which it is identical in habit of growth, freedom of bloom, but with intensely rich, deep blue flowers.
- D. *gold medal hybrids*. A fine strain of mixed hybrids from England. Very fine. Each, 25c; per doz., \$2.50; per 100, \$18.00.
- Blackmore, Langdon Strain*. Very large flowers and long spikes. Special English introduction. Very fine. Each, 35c; per doz., \$3.60.

DIANTHUS BARBATUS—Sweet William

- D. *Scarlet Beauty*. A fine scarlet variety.
- D. *Maroon*. (Single). Almost black.
- D. *Newport Pink*. An excellent pink variety.
- D. *holborn glory*. A beautiful variety.
- Special mixed*. A mixture of all colors, just the thing for mass planting along walks, or for mixed borders. Each, 20c; per doz., \$2.00; per 100, \$14.00.

DIANTHUS—Deltoides (Maiden Pink)

- D. *lat. atrococcineus fl. pl.* Beautiful summer blooming variety, producing masses of brilliant, fiery crimson flowers all season. Each, 20c; per doz., \$2.00.

DIANTHUS—Plumarius

- D. *semperflorens*. Single and double flowers in mixed colors. Each, 25c; per doz., \$2.50.

DIANTHUS PLUMARIUS—Hardy Garden or Spice Pinks

- Elsie*. Bright red, with maroon center.
- Essex Witch*. A delicate pink; edges fringed.
- Gertrude*. White, with maroon markings.
- Grenadier*. Velvety deep red.
- Her Majesty*. Very large; purest white. Each, 25c; per doz., \$2.50; per 100, \$18.00.

DICTAMNUS—Gas Plant

- D. *fraxinella*. Rose-pink flowers.
- D. *fraxinella alba*. Pure white. Each, 50c; per doz., \$5.00.

DIELYTRA OR DICENTRA—Bleeding Heart

- D. *spectabilis* (Bleeding Heart or Seal Flower). An old-time favorite. Each, 50c; per doz., \$4.80.
- D. *exima*. Flowers reddish-purple, drooping. Foliage silvery and lanceolated, growing 10 to 18 inches high. Each, 40c; per doz., \$3.60.

DIGITALIS—Foxglove

- D. *gloxinlaeflora*. A fine strain of finely spotted varieties in color, white, rose and purple.
- D. *maculata superba*. An extra choice strain of beautifully spotted sorts. Each, 25c; per doz., \$2.50 per 100, \$17.00.

DORONICUM—Leopard's Bane

- D. *excelsum*. Has large, yellow marguerite-like flowers, 2½ to 3 inches across, in early spring. 1½ to 2 feet. May, June. Suitable for cutting. Each, 30c; per doz., \$3.00.

ECHINOPS—(Globe Thistle)

- E. *ritro*. Metallic blue flowers; thistle-like foliage. July and August. Each, 20c; per doz., \$2.00.

ERYNGIUM—(Sea Holly)

- E. *amethystinum*. The true blue thistle, with amethyst stems and bracts. Each, 25c; per doz., \$2.50.

Delphinium

EUPATORIUM

E. coelestinum. A useful border plant of strong free growth with blue flowers in August and September. Each, 20c; per doz., \$2.00; per 100, \$14.00.

FERNS—Hardy

Aspidium chrystatum (Crested Fern). 10 to 15 inches.
Aspidium goldiana. 2 to 3 feet tall.
Asplenium filix foeminae victoriae. 15 to 30 inches.
Onoclea struthiopteris (Ostrich Fern). 24 to 36 inches.
Osmunda claytonia (Flowering Fern). 24 inches.
Osmunda cinnamomea (Cinnamon Fern). 24 to 30 inches.
Osmunda regalis (Flowering Fern). 2 to 3 feet tall.
 Strong; pot-grown plants. Each, 40c per doz., \$4.20.

FUNKIA—Day Lily

F. coerulea (Plantain Lily). Blue flowers, broad green leaves. Each, 25c; per doz., \$2.50.
F. subcordata grandiflora (White Day Lily). Pure white, lily-shaped flowers in August. Each, 35c; per doz., \$3.50.
F. undulata media picta. Purple flowers, green and white variegated foliage. Each, 25c; per doz., \$2.50.

GAILLARDIA—Blanket Flower

G. grandiflora. One of the showiest of the perennials, excellent cut flowers.
G. portola hybrids. A new strain of large flowering Gaillardia, having a color range from reddish-bronze to a deep gold. Each, 20c; per doz., \$2.00; per 100, \$14.00.

GERANIUM—Crane Bill

G. sanguineum. A desirable plant with pretty cut foliage and bright crimson flowers. Each, 25c; per doz., \$2.50.

GEUM—Avens

G. atrococcineum. A pretty border plant, growing about 15 to 18 inches high, producing showy bright-colored flowers from May to June. Each, 20c; per doz., \$2.00.

GRASSES—Hardy Ornamental

For single specimens, beds or groups on the lawn nothing gives a finer effect than these. They are now largely used in prominent positions in many of the public parks, etc.

Eulalia japonica variegata. A very graceful variety from Japan. Long leaf blades, striped with green, white, pink and yellow. Grows 4 feet. Each, 30c; per doz., \$3.00.

Eulalia zebrina (Zebra Grass). The long blades of this variety are marked with broad yellow bands across the leaf. Grows 4 feet. Each, 30c; per doz., \$3.00.

Eulalia gracillima unvittata. Of compact habit, with a very narrow foliage of bright green color. Grows 4 feet. Each, 30c; per doz., \$3.00.

Elymus glaucus (Blue Lyme Grass). A handsome grass with narrow glaucous silvery foliage, well adapted for the border or edge of beds containing taller sorts. Grows about 3 feet high. Each, 25c; per doz., \$2.50.

Erianthus ravennae (Plume Grass). Grows 8 to 12 feet high. It resembles the Pampas Grass, but blooms more abundantly. Each, 35c; per doz., \$3.50.

Pennisetum japonicum. One of the most valuable for beds and specimens. 4-inch pots. Each, 20c; per doz., \$2.00.

Phalaris arundinacea (Variegated Ribbon Grass or Gardener's Grass). Large variegated foliage, an excellent grass for bordering large beds. Each, 15c; per doz., \$1.50; per 100, \$9.00.

GYPSOPHILA—Baby's Breath

Graceful border and rock plants with small flowers on light stems. Greatly prized for cutting.

G. paniculata. Minute white flowers in gauze-like sprays, exquisite in combination with other flowers when used as cut flowers. 2 to 3 ft. July and August. Each, 20c; per doz., \$2.00.

G. repens. A beautiful trailing plant for the rockery, with clouds of small white and pink flowers in July and August. Each, 20c; per doz., \$2.00.

Hollyhocks

Gypsophila Bristol Fairy. Beautiful double flowering form; flowers very large and pure white. 2 to 3 feet. July and August. Each, 65c; per doz., \$7.00.

HELENIUM—Sneeze Wort

H. autumnale superbum. Golden yellow flowers in late summer. Each, 25c; per doz., \$2.50.

HELIANTHUS—Hardy Sunflower

H. orgyalis. Medium sized yellow flowers in September.

H. soliel d'or. Double golden yellow flowers in August and September. Fine for cutting. Best of the Helianthus. Each, 20c; per doz., \$2.00; per 100, \$14.00.

HELIOPSIS—Hardy Zinnia

H. pitcheriana. Deep golden yellow, about two inches in diameter.

H. scabra zinniaeflora. Grows 2 to 3 feet high. Large double yellow flowers, 3 inches across. July to October. Each, 20c; per doz., \$2.00.

Gaillardia

Well Selected
Perennial Border
 Collection \$3.65
 Specially priced at

A collection of rare loveliness for a "different" perennial border—24 plants in all as follows: 2 *Campanula Media*, 2 *Chrysanthemum*, 1 *Dielytra Spectabilis*, 2 *Gaillardia*, 2 *Helianthus Soliel d'or*, 3 *Iris Ambassadeur*, 2 *Lythrum Roseum*, 2 *Popaver Oriental*, 3 *Rudbeckia Purpurea*, 2 *Sedum Spectabilis* and 3 *Stockesir Cyanea*, a glorious display of unusually lovely color; all for \$3.65.

HEMEROCALLIS—Yellow Day Lily

- H. aurantiaca major.** Rich Indian yellow with flowers in June.
- H. dumortieri.** Rich cadmium yellow, buds and reverse of petals bronze-yellow. Very dwarf. Blooms in June.
- H. fulva** (Tawny Day Lily). Grows from 4 to 5 feet high, with trumpet-shaped flowers of a uniform orange color with darker shadings; June and July.
- H. thunbergi.** The latest to flower; rich buttercup-yellow, funnel shaped flowers throughout July; 4 feet. Each 20c; per doz., \$2.00.

HESPERIS—Sweet Rocket

- H. matronalis.** Deliciously sweet-scented flowers for the garden and for cut flowers. Each, 20c; per doz., \$2.00.

HIBISCUS—Mallow

- H. Crimson Eye.** Creamy white flowers with large crimson centers. Each, 20c; per doz., \$2.00; per 100, \$14.00.
- H. mallow marvels.** A robust type of upright habit, with abundance of flowers of enormous size in all the richest shades of crimson, pink and red. Each, 20c; per doz., \$2.00; per 100, \$14.00.

HOLLYHOCKS

We have a popular list of these flowers grown in pots and will bloom this year. Double varieties in maroon, red, white and yellow. Also in the beautiful shade of Newport Pink. Each, 25c; per doz., \$2.50.

IBERIS—Perennial Candytuft

- I. Sempervirens.** Very dwarf and covered with sheet of white. Fine for rockery. 8 to 10 inches.
- I. gibraltarica.** Similar to Sempervirens, flowers pinkish white. Each, 25c; per doz., \$2.50.

Iris

GERMANICA (Fleur de Lis)

The German Iris is one of the most desirable early spring flowering plants. The flowers are of large size and exquisite colors. No garden should be without a collection of these popular flowers.

- Black Prince.** S, deep violet; F, purple.
- Boccage.** (L'Africain). S, rosy purple; F, purple striped white.

Caprice. S, rosy-red; F, deeper rosy-red.

Eldorado. Bronze, good variety.

Gertrude. S and F, clear violet blue.

Her Majesty. S, rosy pink, veined crimson.

Juniata. S and F, clear blue.

Leonidas. S, clear mauve; F, rosy mauve.

Lohengrin. Deep violet - mauve, large.

Lorelei. S, light yellow; F, blue, bordered light yellow.

Mad. Pacquette. Rosy-claret.

Mme. Chereau. White, elegantly frilled azure-blue.

Mrs. Horace Darwin. S, snow-white; F, white, slightly violet at base.

Monsignor. S, violet; F, velvety purple-crimson.

Nibelungen. S, fawn and yellow; F, violet-purple on bronze.

Pallida dalimatica. S, clear lavender-blue; F, deep lavender.

Prosper Laugier. S, light bronze-red; F, velvety ruby-purple.

Purple King. S, purple; F, deep purple. Early.

Quaker Lady. Smoky lavender, shading to deep blue.

Queen of May. Lilac-pink; large; mid-season; 32 inches.

Rhein Nixe. Standards white, falls violet-purple edged white.

Sherwin Wright. S and F, bright clear yellow.

Prices on above: Each, 20c; per doz., \$1.80; per 100, \$13.00.

SPECIAL VARIETIES

Alcazar. S, light violet; F, deep purple-bronze, veined throat. Each, 20c; per doz., \$1.80.

Ambassadeur. S, smoky velvety-purple color; F, velvety purple-maroon. Each, 35c; per doz., \$3.60.

Lent A. Williamson. A new introduction; very fine. S, lavender-violet. Each, 35c; per doz., \$3.60.

Lord of June. S, lavender-blue; F, rich violet-purple, sweetly scented. A very fine variety. 40-inch. Each, 35c; per doz., \$3.60.

Mother of Pearl. A light soft lavender with a lustrous texture displaying the iridescent colors of Mother of Pearl. Each, 40c; per doz., \$4.20.

Oriflame. S, light blue; F, rich violet-purple. Each, 25c; per doz., \$2.50.

Queen Catarina. Another new introduction; very fine. Azure-blue, fragrant. Each, 30c; per doz., \$3.00.

An Iris Bordered Driveway

INTERMEDIATE VARIETIES

Walhalla. S, lavender; F, wine-red.

Freya. S, pearl; F, flamed violet.

Helge. Lemon-yellow, pearl shading. Each, 15c; per doz., \$1.50; per 100, \$10.00.

IRIS PUMILA—Dwarf, for Edging.

Bride. White with primrose beard. Each, 15c; per doz., \$1.50.

Cyanea. Deep velvety-blue; flowers large. Each, 12c; per doz., \$1.00; per 100, \$6.00.

Falry. Pale blue, fine. Each, 15c; per doz., \$1.50.

Stewart alpina hybrata. Pure yellow. Each, 15c; per doz., \$1.50.

**only \$1.50
for seven fine
JAPAN IRIS**

All select varieties, our selection, seven No. 1 plants, postage paid, \$1.50. Japan Iris make a delightful background for a lily pool.

IRIS—Japanese

Astarte. Double beautiful dark violet.

Hercule. Double clear lilac, blue.

Iphigene. Deep Chinese lilac.

Iso-no-nami. Double soft blue, silvery veins.

Koko-no-iro. Rich royal purple with white veinings.

Ski-no-ryo. Double blue and white. Each, 25c; per doz., \$2.50; per 100, \$18.00.

IRIS—Orientalis

I. orientalis blue. Similar to Siberica varieties but not so tall.

I. siberica. Purplish-blue flowers. 3 feet high, useful for cutting. Each, 15c; per doz., \$1.50.

8 VARIETIES OF FINE GERMAN IRIS FOR \$1.00

Varieties you'll find in every Iris lover's garden, one each of Ambassadeur, Alcazar, Caprice, Eldorado, Juniata, Lorelei, Monsignor, and Queen Catarina—
Collection of 8, postpaid.....**\$1.00**

LATHYRUS—Perennial Pea

L. latifolius. Hardy climbing pea. We have these in pink and white. Each, 20c; per doz., \$2.00.

LAVANDULA—Lavender

L. vera. This is the true sweet lavender; grows about eighteen inches high. Delightfully fragrant flowers in July and August. Each, 25c; per doz., \$2.50.

LILIUM—Lily

Outdoor culture. When planting Lilies out of doors, see that they have a well-drained position, and where they will be shaded from very hot sun. Such places can usually be found around the shrub borders, and in the hardy plant border.

Spade over the ground thoroughly to a depth of 18 inches before planting Lilies and enrich it by adding equal portions of leafmold, peat and rotten manure. Plant the bulbs 4 to 6 inches deep, putting some sand under and around the bulbs.

L. candidum. The old-fashioned pure white garden lily. One of the hardiest. 5 to 6-inch pots. Each, 35c; per doz., \$3.60.

L. auratum. Flowers very large, delicate ivory-white, thickly dotted with rich chocolate crimson spots. A bright golden band runs through the center of each petal. The finest of all lilies. 6-inch pots. Each, 40c; per doz., \$4.20.

L. rubrum. White, heavily spotted with rich crimson spots. 6-inch pots. Each, 40c; per doz., \$4.20.

L. tigrinum fl. pl. (Double Tiger Lily). Orange-scarlet with dark spots. Each, 30c; per doz., \$3.00.

L. tigrinum. Single form of the above. Each, 30c; per doz., \$3.00.

THE NEW REGAL LILY

Lilium regale or *myriophyllum*. Experiments have proven this new Lily to be hardier than most kinds. The flowers are white, slightly suffused with pink; with a beautiful glow of canary-yellow at center; which continues part way up the trumpet. July. Each, 30c; per doz., \$3.00.

LOBELIA CARDINALIS (Cardinal Flower)

Handsome border plants. Rich, fiery cardinal flowers; strong plants, often producing 10 to 18 spikes. Thriving in any ordinary garden soil, but preferring a moist, deep loam, where they will not suffer from drought. August till late in September. Each, 25c; per doz., \$2.50; per 100, \$18.00.

LUPINUS—Lupine

L. polyphyllus. An effective plant, producing large spikes of clear blue flowers during the latter part of May and early June. Grows about 3 feet high. Each, 25c; per doz., \$2.50.

LYSIMACHIA—Money-Wort

L. nummularia (Creeping Jenny or Money Wort). Valuable for planting under trees or shrubs where grass will not grow, where it quickly forms a dense carpet. Each, 15c; per doz., \$1.50; per 100, \$10.00.

LYCHINIS—Campion

L. calcedonica (Jerusalem Cross). Brilliant orange-scarlet flowers all summer, 2 to 3 feet high.

L. haageana. Brilliant orange-scarlet flowers in May and June. 12 inches.

L. viscaria. Forms a dense tuft of evergreen foliage; flower spikes of double, deep red, fragrant flowers in June. 1 foot. Each, 25c; per doz., \$2.50.

LYTHRUM—(Loose-strife)

L. roseum superbum. A very pretty perennial; grows 3 feet high, and produces spikes of rosy flowers from July to September. Each, 20c; per doz., \$2.00.

MERTENSIA—Virginia Blue Bells

M. virginica. A dark green foliage, loose panicles of rich blue-purple flowers 12 to 18 inches; very early. Each, 20c; per doz., \$2.00.

MONARDA or BERGAMOT —Oswego Tea

Showy plants 24 to 30 inches, succeeding in any soil, aromatic; rather coarse foliage. July and August.

M. didyma. Brilliant crimson scarlet. Each, 20c; per doz., \$2.00; per 100, \$15.00.

MYOSOTIS—Forget-me-not

This plant is charming in the border, rock garden or by the waterside. Thrives best in some shade and with sufficient moisture.

M. palustris. Rich blue flowers with yellow eye. Each, 20c; per doz., \$2.00.

NEPETA—(Ground Ivy or Catmint)

N. mussini. An excellent plant for rock gardens, of dwarf compact habit, producing masses of bloom of a beautiful lavender. 1 to 2 feet. Each, 20c; per doz., \$2.00.

OENOTHERA— Evening Primrose

O. missouriensis. Large yellow flowers, often 5 inches in diameter, produced freely from June till August.

O. youngii. A strong, stocky, large-leaved plant, with firm, shiny foliage; numerous light lemon-yellow flowers. 2 feet. June to August. Each, 20c; per doz., \$2.00.

PACHYSANDRA —Japanese Spurge

P. terminalis. A trailing plant; glossy green foliage; spikes of flowers in May and June. A cover plant either in sun or shade. Each, 20c; per doz., \$2.00; per 100, \$17.00.

PEONIES—Herbaceous

It is probably the most showy spring flowering plant in our entire list of hardy plants. All plants will be strong divisions with from three to five eyes.

Charlemagne. Light pink, late. Each 45c; per doz., \$4.80.

Duchess de Nemours. Pure white, early. Each, 45c; per doz., \$4.80.

Duchesse de Orleans. Deep pink, mid-season. Each, 45c; per doz., \$4.80.

Edulus Superba. Rose-pink, early. Each, 45c; per doz., \$4.80.

Festiva Maxima. White, crimson-flecked center. Early. Each, 35c; per doz., \$3.50.

Francis Ortegat. Purplish-crimson. Midseason. Each, 60c; per doz., \$6.50.

Gen'l McMahon. Brilliant red. Mid-season. Each, 60c; per doz., \$6.50.

Mme. de Verneville. Pure white. Early. Each, 45c; per doz., 4.80.

Mme. Ducl. Silvery-pink. Midseason. Each, 45c; per doz., \$4.80.

Mons. Krelage. Dark red. Midseason. Each, 60c; per doz., \$6.50.

Officinalis Rubra. Crimson, fringed leaf. Early. Each, \$1.00; per doz., \$11.00.

Following varieties of Peonies are a valuable addition to our list.

Baroness Schroeder. 9.0. The flower is of immense size, globular type. Guard petals white with soft baby-pink center, becoming pure white. Deliciously fragrant. Very good. Late midseason. Each, 75c; per doz., \$7.80.

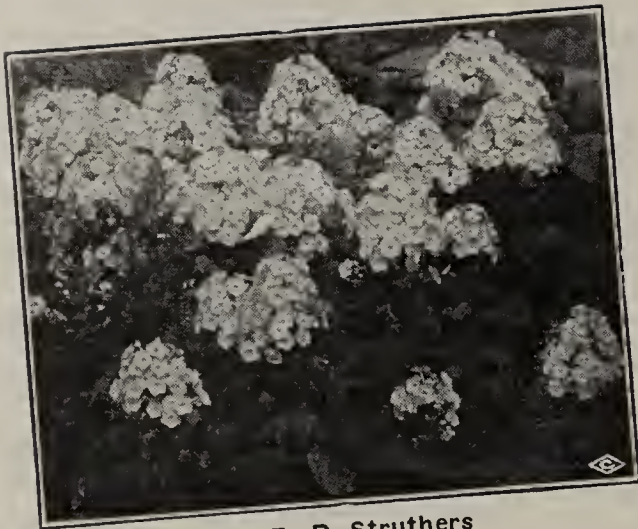

Karl Rosenfield. 8.8. The flower is large, of semi-rose type, of a most perfect rich, deep brilliant crimson, on long, straight stem; slightly fragrant. Blooms early midseason. Each, 60c; per doz., \$6.00.

Officinalis tenuifolia flora plena. Clear brilliant red; dwarf, finely-cut foliage, very early in bloom. Very scarce. Each, \$1.75.

President Taft. 8.7. Lovely, delicate hydrangea-pink, enveloped in a halo of very fine white. Deliciously fragrant. Strong, straight, erect stems; flowers last; strong grower; good foliage. Double type. Mid-season. Each, 60c; per doz., \$6.00.

Peonies for Decoration Day

Phlox—R. P. Struthers

PENSTEMON—(Beard Tongue)

P. barbatus (Chelone). Brilliant scarlet flowers in June and August. Each, 25c; per doz., \$2.50.

PHLOX DIVARICATA CANADENSIS

One of our native varieties. Large, bright, lilac-colored flowers, which are produced on stems about 10 inches high, in large, showy heads, and are very fragrant. April. Each, 20c; per doz., \$2.00.

10 SELECT HARDY PHLOX \$1.50

We'd like to see every customer get one of these hardy Phlox collections—containing 10 select plants of 5 varieties, one selection postpaid, \$1.50.

Sarah Bernhardt. 9.0. The ideal of refinement in Peonies; apple-blossom-pink with each petal silver tipped, as perfect a Peony as could be imagined. It possesses an agreeable fragrance; blooms mid-season to late. Double type. Each, 75c; per doz., \$7.80.

Venus. 8.3. Exceptionally tall, strong and upright growth. Large cupped guards and conical center with incurved notched petals of pale, old-rose-pink with a decided lavender tone. Rose fragrance. Each, 60c; per doz., \$6.00.

Following is a list of unnamed sorts, which we are selling by color. All varieties in this list are of the best and are sure to please. 3 to 5-eye plants.

Pink and White. Each, 25c; per doz., \$2.50.

Red. Each, 30c; per doz., \$3.00.

PHLOX SUFFRUTICOSA—Early Flowering Hardy Phlox

Miss Lingard. A very fine white variety, begins to flower after the middle of June and continues throughout the season. Largely used for cut flowers. Each, 20c; per doz., \$2.00; per 100, \$14.00.

HARDY PHLOX

The finest and most useful of the herbaceous plants. They succeed in almost any soil, or in any position, and flower throughout a long season.

Planting. Phlox may be planted in the autumn, from September 15th to October 15th, so as to become established before winter; but when they are to be planted in conjunction with other perennials, wait until spring.

P. B. Comte. Rich French purple, very brilliant.

P. Bridesmaid. White with large crimson center.

P. Coquelicot. Clear scarlet with crimson eye.

P. Eclairer. Bright rosy-carmine with lighter halo.

P. Enchantress. Bright salmon pink, dark eye and vigorous.

P. Fuerbrand (Fireglow). Brilliant orange-scarlet. Sometimes almost vermillion. Flowers very freely and blooms are produced in quantity throughout the entire season. Medium height.

P. Isabay. Salmon-pink.

P. Mrs. Jenkins. Pure white, late flowering, grows very fast and is of medium height.

P. Pantheon. Bright carmine-rose.

P. R. P. Struthers (Tall). Rose cherry-red.

P. Thor. Salmon-pink. Medium growth.

P. Wildar. Bright reddish-violet, white eye.

Each, 20c; per doz., \$2.00; per 100, \$15.00.

PHLOX SUBULATA—Moss or Mountain Pink

A pretty creeping type, with moss-like evergreen foliage, which in early spring is hidden beneath a mass of bloom. One of the very best plants in our collection for the rockery, and invaluable for covering graves or carpeting the ground. Grows about 6 inches high.

P. S. rosea. Bright rose.

P. S. alba. Pure white.

P. amoena. One of the best varieties for carpeting the ground, the rockery or the border. Grows 4 inches high, and in the spring is a sheet of rich bright pink flowers.

P. S. atropurpurea. Purplish-rose. Each, 20c; per doz., \$2.00.

PHYSALIS FRANCHETI—(Chinese Lantern Plant)

An ornamental plant forming dense bushes about 2 feet high, producing freely its bright orange-scarlet lantern-like fruits, which can be cut and dried for winter bouquets; highly interesting. Each, 20c; per doz., \$2.00.

PHYSOSTEGIA—(False Dragonhead)

P. virginica. Forms large clumps 3 to 4 feet high, bearing long spikes of delicate pink flowers, tubular in form. July and August.

P. virginica alba. White form of the above.

P. virginica vivid. Dwarf in habit, attaining a height of twelve to eighteen inches, very free flowering, color lavender-pink, produced on closely set spikes. July and August. Should be in every collection. Each, 15c; per doz., \$1.50; per 100, \$10.00.

Platycodon

3 fine PEONIES 75c

Three specially selected varieties that will give you a wealth of lovely blooms, red, pink and white, large 3 to 5 eye plants, postpaid..... 75c

PAPAVER—Poppy

Oriente Pink. (May Sadler). Each, 35c; per doz., \$3.50.

Oriente Red. (Beauty of Livermore). Each, 35c; per doz., \$3.50.

Oriente Mixed. Each, 25c; per doz., 2.50.

Perennials Extra Good for Cut Flowers

Anemones	Gaillardia
Babysbreath	Geums
Chrysanthemum	Iris
Columbine	Larkspur
Coreopsis	Tritoma
Daisies	Peonies in Var.
Doronicum	Phlox in Var.

PLATYCODON—Balloon Flower or Japanese Bell Flower

- P. grandiflorum.** Deep blue, cupped, star-shaped flowers.
- P. grandiflorum alba.** Pure white star-shaped flowers.
- P. double white.** Same as Grandiflorum.
- P. double blue.** Same as Grandiflorum. Each, 20c; per doz., \$2.00.

A Good Specimen
of the Wealthy

We raise only the Standard Varieties

Our list has been reduced to only the most dependable sorts and those listed below may be planted with confidence.

When pruning apple trees permit 3 to 5 well developed branches to remain, but shorten these to 6 to 8 inches.

Plant standard apple trees from 30 to 40 feet apart each way, according to the nature of the soil.

At 30 feet apart it takes 48 trees per acre; 40 feet apart it takes 27 trees per acre.

	Each	Per 10	Per 100
Extra selected trees.....	\$0.60	\$ 5.00	\$
2-yr., $\frac{1}{8}$ to 1 in., 5 ft. and up.....	.45	3.50	30.00
2-yr., $\frac{1}{16}$ to $\frac{1}{8}$ in., 4 ft. and up.....	.35	2.50	20.00

PLEASE NOTE that we specify age, caliper and approximate height of our fruit trees—this eliminates any guesswork when you buy WEBER Trees.

SUMMER OR EARLY VARIETIES

Early Harvest.
Medium to large, flat, pale yellow; good. Tree a fair grower and bearer. July.

Oldenburg (Russian). Medium to large; striped, mostly red, best summer cooking apple; tree hardy, early and a good bearer. July and August.

Red June. Medium size, red; flesh white, tender, juicy, sub-acid; an abundant bearer. July.

Yellow Transparent (Russian). Skin clear white, changing to pale yellow when fully ripe; flesh white, tender, sprightly sub-acid; good bearer. July.

AUTUMN VARIETIES

King David. A beautiful apple, resembles Jonathan in color. Tree strong, vigorous grower, healthy, bears young. September.

Livland. One of the finest of early apples, succeeds well over a wide section. Color clear, waxy white, striped and marbled crimson and pink.

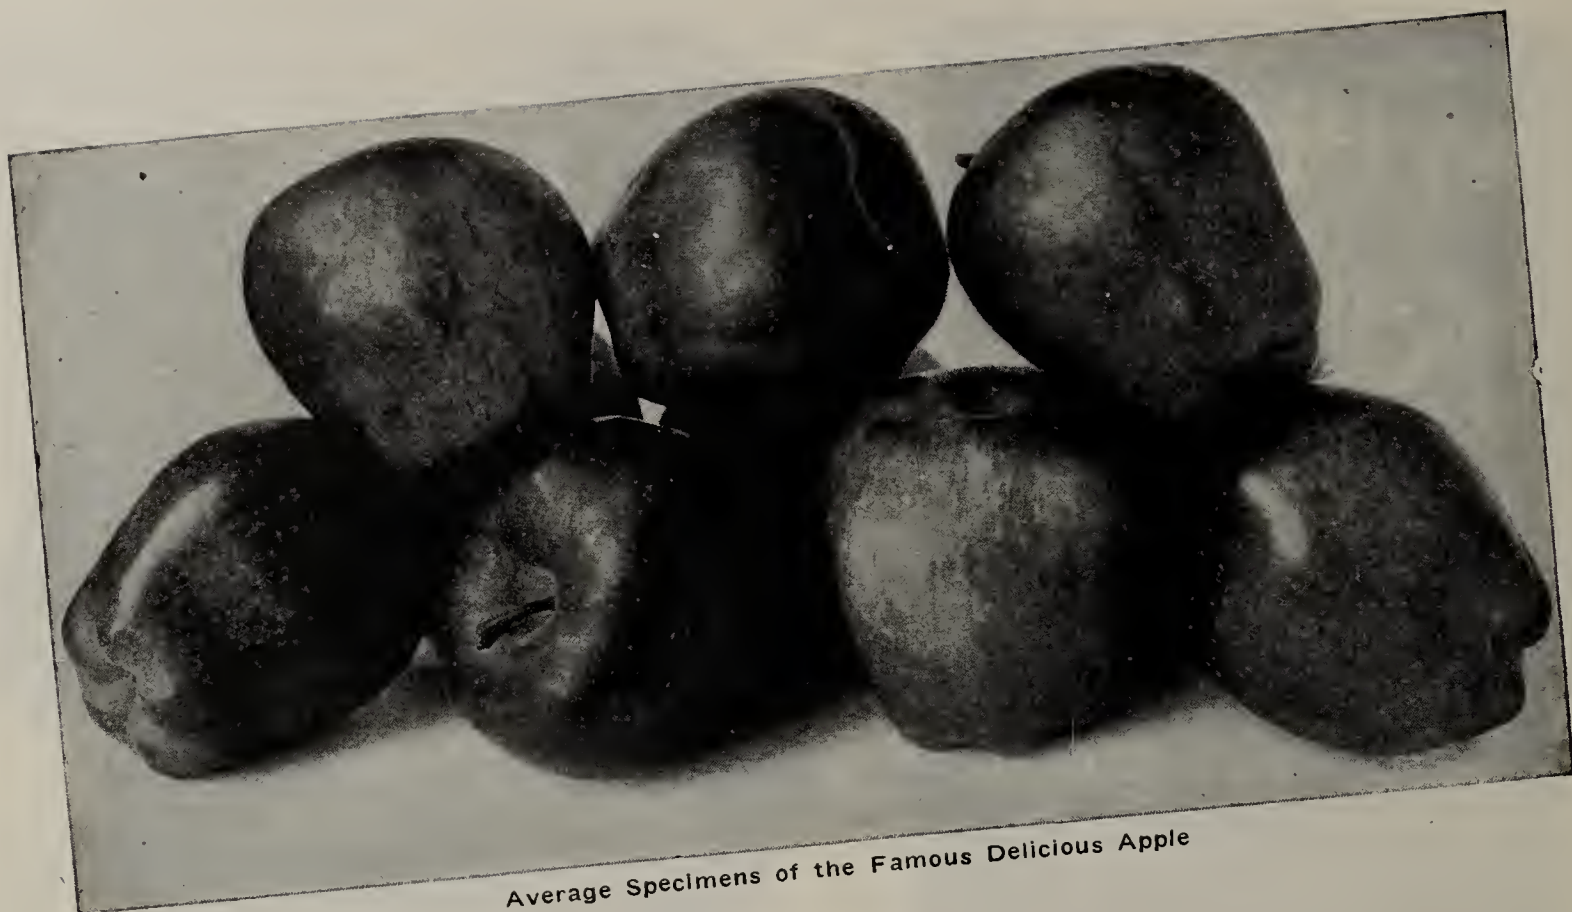

Maiden Blush. Large, flat, pale yellow; beautiful blush; mild, sub-acid; valuable for market, cooking and drying. September.

Wealthy. Fruit medium, oblate, skin smooth, whitish-yellow, shaded with deep red in the sun, splashed and spotted in the shade. Flesh white, tender, juicy, sub-acid. very good. August to September.

A Special Bargain 20 TREE \$6.75 Collection

A well selected fruit collection containing six different fruits—all of which should be on every home place that has room for them. Our selection of 4 Apples, 5 Peaches, 2 Pears, 4 Plums, 2 Sweet Cherries and 3 Sour Cherries—Catalogue Price \$9.25—specially priced while they last **\$6.75**

Why not make a present of this collection to one of your children? It will be sure to please them.

Average Specimens of the Famous Delicious Apple

EARLY WINTER VARIETIES

Grimes. Medium to large, roundish, oblate, slightly conical, large specimens oblong. Skin yellowish-white, with a mild sub-acid, agreeable, good to best flavor. September to December.

Jonathan. Medium size, form roundish, conical; skin thin and smooth, the ground clear, light yellow, neatly covered with lively red stripes and deepening into brilliant or dark red in the sun; flesh white, rarely a little pinkish; very tender and juicy; mild, sprightly vinous flavor. September to December.

WINTER VARIETIES

Arkansas (Mammoth Black Twig). A seedling of Winesap, which it resembles in every way except that the tree is a better and much more vigorous grower, more hardy, and the fruit is much larger. Color dark red; flesh firm; flavor mild. A good keeper. One of the best. October to May.

Black Ben. Of the Ben Davis type, said to be better than Gano. Fruit large, deep red, long keeper, good shipper and sells well on the market. September to February.

Cortland. Tree is hardy and a good, early bearer. The abundant, large, round fruits are of a beautiful, rich red color; juicy and sprightly in flavor and very delightful to the taste. November to January.

Delicious. This variety should be in every orchard. Fruit large, almost covered with beautiful, dark red, blending to yellow at the blossom end. Flesh crisp, juicy, fine-grained, melting. September to February.

Janet (Rawles). Also called Geneton. Medium to large when grown on good soil and not allowed to overbear; flat, conical striped, red, sub-acid; very good for market and family use. Good cider apple. October to April.

Stayman. Tree is a vigorous grower, drooping in habit; fruit large size, bright red color and produced in large quantities. A Yellow Twig, profitable market variety. October to March.

Winesap. Medium, conical, dark red; very smooth. Acid to sub-acid, juicy and rich, very valuable for both family and market. Tree very hardy and an early and constant bearer. December to April.

Winter Banana. Large, good for dessert; bears young.

Willow Twig. Valuable in the middle states. Tree a moderate grower, productive. Fruit high quality; a late keeper.

Yellow Bellflower. Large to very large; oblong, pale yellow, sometimes blushed; acid to sub-acid, rich and good. Tree a fine spreading grower and hardy. October to January.

York Imperial. Medium to large, oblate; color white, shaded with crimson; flesh firm, crisp, juicy and sub-acid; a good bearer and keeper; one of the best winter apples. November to April.

CRAB APPLES

Same price as Apple.

Florence. Fruit medium in size; color carmine when well colored; flesh yellowish, fine, acid. Excellent for cooking and for jelly.

Transcendent. Medium size, flavor pleasant and agreeable; extremely hardy.

Hyslop. Large size, beautiful dark crimson. Hangs in clusters. September.

If you can spare space for a small orchard let us help you select trees that will give you fresh fruit over a long season.

SPRAY FOR PERFECT FRUIT

SPRAY WITH SCALECIDE (the perfect spray) while trees are dormant. Use **SCALECIDE** and **SULFOCIDE** for delayed dormant or cluster bud spray. Use **SULFOCIDE** for summer spray to control fungous troubles. Ask us about them. See Page 46.

PEACH

The Peach is probably the finest of our fruits; everybody delights in the flavor of a fine, juicy Peach. In this section, select high, dry lands, northern or western exposure preferred.

PRICES

	Each	Per 10	Per 100
1-year, $\frac{1}{8}$ and up, 5 to 7 ft.	\$0.55	\$ 4.50	\$
1-year, $\frac{1}{8}$ to $\frac{1}{4}$, $4\frac{1}{2}$ to 6 ft.40	3.00	25.00
1-year, $\frac{1}{8}$ to $\frac{1}{4}$, $3\frac{1}{2}$ to 4 ft.30	2.00	15.00

Belle. Very large; skin white, with red cheek; flesh white, firm and excellent flavor; the fruit is uniformly large and showy; a very prolific bearer. July 15th to 20th.

Carman. Large, resembles Elberta in shape; color creamy white, with deep blush; skin very tough; flesh tender, fine flavor and quite juicy. One of the hardiest in bud. In shipping qualities and freedom from rot it is unsurpassed. Profitable market variety. July 10th to 15th.

Champion. Originated at Nokomis, Ill. Flavor delicious, sweet, rich, juicy, surpassing all other early varieties. Skin creamy white with red cheek. Early, productive and large. Perfect freestone. August 10th to 15th.

Crawford Early. The best early yellow freestone; one of our oldest varieties. Ripens about August 1st.

Crawford Late. Ripens from 14 to 20 days later than the Crawford Early and is larger in size; color about the same, only a little darker red and yellow. One of the best and finest yellow freestones; moderately productive. August 25th to 30th.

Elberta. Supposed to be a seedling of Chinese Cling, but is entirely free. Very large, yellow, with red cheek; flesh yellow, firm, juicy and of high quality; exceedingly prolific; sure bearer and hardy. August 15th to 20th.

Golddust. A large, fine peach in every respect; color, bright yellow shaded with red; juicy, sweet; valuable for canning.

Goldfinch (Early Elberta). Color beautiful yellow, red on the sunny side; flesh juicy and sweet. August 10th to 15th.

Greensboro. The largest and most beautiful colored of the extra early peaches. A freestone; flesh white, juicy and excellent. July 10th to 15th.

Heath Cling. One of the finest canning peaches; good size; lemon shape; tree a good grower and excellent bearer. September 15th to 20th.

J. H. Hale. "Everybody has heard of this variety; ripens about the same time as Elberta; said to be larger and better flavored; highly colored." August 15th to 20th.

Krummel's Late. Found in an orchard on property of Mr. Krummel of St. Louis. Color a rich golden yellow, with bright red cheek; round, freestone, juicy. Ripens here about October 5th, and is a good keeper.

Mamie Ross (Cling). Very large, oblong; color similar to Chinese Cling, but has more of a red cheek. With us one of the best early clingstones. July 20th to 25th.

Champion

Plant More Fruit Trees

*Plant Weber's Quality Trees.
They are better. We guarantee our stock true to name.*

Prices are right.

Mayflower. Originated in North Carolina; very early; color perfectly red; a valuable market sort. Perfectly hardy in bud and a heavy cropper. July 10th to 15th.

October Beauty. A late yellow cling. When ripe, a dark purple. Originated on the grounds of Judge Hugo Muench of St. Louis. We recommend it as the best late yellow cling. October 5th to 10th.

Rex. (Late Elberta). Almost identical with Elberta, but ripens several weeks later. Fine market peach, good shipper. August 30th.

Ringold. A good late clingstone. White, 10 days earlier than Heath Cling.

Rochester. A new yellow freestone variety. The fruit is large, yellow, sweet, juicy and of delicious flavor, keeping and shipping well; skin prettily blushed. Tree strong grower and hardy; prolific bearer. Ripens about July 25th.

Salway. Large, creamy yellow, with crimson cheek; flesh deep yellow, juicy, rich, sweet. September 15th to 20th.

Stump. Very large, roundish; skin white, with bright red cheek; flesh white, juicy. One of the best late freestones. September 1st to 5th.

Wheeler (Red Bird Cling). Fruit larger than Greensboro, round, flesh white, juicy; tough skin nearly covered with deep red. A good shipper. July 1st to 5th.

Catalog Price
6 $4\frac{1}{2}$ to 6 foot PEACH TREES \$1.80

"Make-a-friend" Collection

Peaches grow so quickly and require so little room that everyone should have them. This collection contains one each of Belle, Goldfinch, Elberta, Rochester, Salway, and Heath Cling—and are worth much more than the special price
of..... **\$1.50**

CHERRY

The Cherry is one of the finest and most delicate desert fruits. The acid varieties are also highly esteemed for preserving and cooking purposes. Although a very perishable fruit, the period of its use may be prolonged to six weeks by a proper selection of varieties. The trees thrive well in any soil which is sufficiently well drained, but will not succeed a long time where the sub-soil is wet.. Plant 20 feet each way; 109 trees to the acre.

Duke Varieties

May Duke. Medium, dark red, melting, rich, juicy, excellent. A reliable early cherry, nearly sweet.

Sour Varieties

Dyehouse. A very early and sure bearer. Ripens a week before the Early Richmond.

Montmorency. Large red cherry, ripening ten to fourteen days after Early Richmond. Tree a slow but stiff grower; very profitable bearer; valuable late sour cherry.

Morello. Good size, very dark red when fully ripe, rich, acid, juicy, excellent for canning. Later than Montmorency.

Richmond. Medium size, light red; melting, juicy, sprightly acid flavor. Tree healthy and productive. One of the most popular early cherries.

PEARS

The cultivation of this noble fruit is extending as its value is appreciated. The Pear, like most of the things highly desirable and valuable, cannot be had without attention, labor and skill. One of the most important points in the management of the pear is to gather them in the proper time. Summer pears should be gathered at least ten days before they are ripe; and August pears at least a fortnight.

At planting time prune to three to five well developed branches distributed evenly about the main stem. Shorten these to 6 to 8 inches.

(The letters "D" and "S" appended to the descriptions of varieties indicate favorable growth, either as dwarfs or standards, or both.) Plant Standard varieties 20 to 25 feet apart; Dwarfs, 10 to 12 feet apart.

Autumn Varieties

Angouleme (Duchess) (D). The largest of our good pears; succeeds on pear, but attains its highest perfection on quince.

Anjou (S). A large, fine pear, buttery and melting, with sprightly vinous flavor. Tree a vigorous grower and good bearer.

Bartlett (S). One of the most popular pears; large, buttery and melting, with rich flavor.

Garber (S). Earlier than Kieffer, larger and much better quality; free from blight; very hardy. Excellent for canning or preserving.

Howell (S). Large, handsome, sweet and melting; tree very vigorous, hardy and productive.

Kieffer (S). Skin rather rough. Color yellow, with red cheek in the sun. Flesh white, juicy, buttery and rich. Tree a very strong, upright grower.

Seckel (S). Small but of highest flavor. Tree a strong, slow, erect grower; very hardy and bears abundantly.

Sheldon (S). Fruit medium; color greenish-yellow, mostly covered with russet and a little brownish-crimson in the sun. Juicy, rich, aromatic and sweet.

Winter Varieties

Lawrence (S). Size medium to large; obovate; color a golden yellow; flesh melting, with a rich, aromatic flavor.

PLUM

The plum demands a rich soil well drained and additional fertility given after a few years proves beneficial. The trees usually are planted about 20 feet apart and can be used as a filler in an orchard between permanent trees. They thrive especially well in back yards, gardens and in chicken runs.

Pruning at planting time should consist of removing one-half to two-thirds of the length of all the side branches leaving 4 to 7 evenly distributed around the body of each tree.

Plant 20 feet apart; 109 to the acre.

	Each	Per 10	Per 100
$\frac{1}{8}$ and up, 5 ft. and up.....	\$0.50	\$4.00	\$ 35.00
$\frac{1}{8}$ to $\frac{1}{16}$, 4 ft. and up.....	.40	3.00	25.00

European Varieties

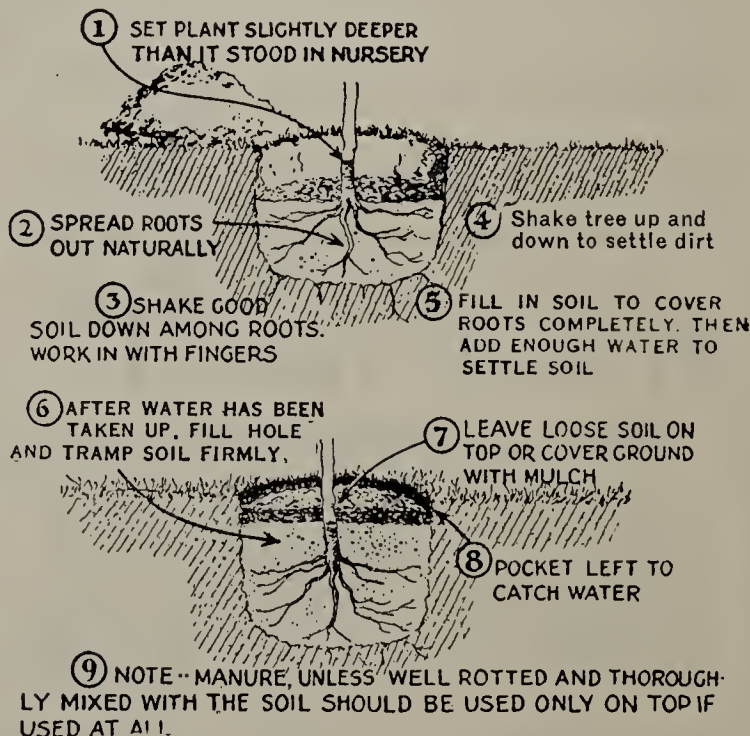

Damson (Common Blue). A valuable market sort. It bears enormous crops. It is one of the best plums for preserving. August and September.

German Prune. Large, dark purple, sweet, good. September.

Lombard. Medium, violet red, juicy, good, hardy and productive. August.

Moore's Arctic. Small, purplish-black, juicy, sweet, immense bearer; one of the hardiest in bud and bloom. September.

Shropshire. An English variety of great merit for preserving. An abundant bearer and hardy.

INSTRUCTIONS FOR PLANTING TREES

Japan or Oriental Varieties

This class of plums and their hybrids are strong-growing trees with light green foliage and attractive bloom, productive and usually commence bearing the third to fourth year after planting. They bloom very early, should be planted on north or west slopes and in sections not subject to late spring frosts.

Botan. Beautiful lemon-yellow ground, nearly overspread with bright cherry. Large to very large; oblong, tapering to a point like the Wild Goose; flesh orange yellow, melting, rich and aromatic. August.

Burbank. Large, nearly globular; clear cherry red, with a thin lilac bloom; flesh a deep yellow, very sweet and agreeable flavor. Hardy. August.

Wickson. A sturdy, upright grower, productive almost to a fault; fruit remarkably handsome, deep maroon; stone small; flesh fine texture, firm, sugary and delicious.

Waneta was originated by Professor Hansen at the Dakota Experiment Station. It is without question the best one of the numerous plums that have been sent out by him. The Waneta attains a size of two inches in diameter. Fruit, a dark purplish red overlaid with blue bloom; has a delicious flavor.

Chickasaw Varieties

Wild Goose. Well known, large, deep red when ripe. Good quality; one of the best native plums; should be in every orchard. July.

APRICOT

There is no fruit more delicious or beautiful than the Apricot, and its ripening between cherries and peaches renders it especially valuable. Its chief enemy is the curculio, which can be kept in check by the method suggested for plums. Plant the same as plums.

Early Golden. Small size; color pale orange yellow; juicy and sweet; exquisite flavor.

Moorpark. One of the largest; color orange yellow, with red cheek; firm, juicy, with a rich flavor; very productive.

Royal. Large, yellow, juicy, rich and delicious; a very fine variety.

	Each	Per 10	Per 100
$\frac{3}{16}$ to $\frac{1}{8}$, 4 ft. and up.....	\$0.60	\$5.00	\$ 45.00

QUINCE

The Quince is hardy and prolific, bearing its crops with great regularity.

The trees or bushes should have a good, rich soil, clean cultivation and an annual dressing of well-rotted manure. Thinning out the twigs so as to keep the head open to the sun and air, and removing dead or decaying branches, is all the pruning that is required. Plant 10 feet apart each way, 435 trees to the acre.

Champion. The tree is a prolific and constant bearer; fruit averaging larger than the Orange, but not so high colored; more oval in shape. Quality equally as fine and a good keeper.

Orange. Fruit large, bright yellow color; a good bearer. The standard variety in quince.

	Each	Per 10	Per 100
$\frac{5}{8}$ and up, 4 feet and up.....	\$0.65	\$5.50	\$ 50.00

MULBERRIES—Morus

American. Equal to Downing in fruit, but very much hardier. Vigorous grower, very productive; the best variety for fruit; ripe from middle June to middle September.

	Each	Per 10
6 to 8 feet.....	\$0.90	\$8.00

Russian. Very hardy, vigorous grower; valuable for feeding silkworms, also relished by birds.

	Each	Per 10
5 to 6 feet	\$0.45	\$3.50

NUT TREES

The growing demand for nuts and the immense quantities imported annually is giving an impetus to the planting of nut-bearing trees in America. Many farms contain land that would be far better planted to nut trees than in anything else, and would pay better than farm crops, besides annually growing more valuable as timber.

Chestnut (American Sweet). A valuable native tree, both useful and ornamental; timber very durable and possesses a fine grain for oil finish. Nuts sweet and of delicate flavor, and a valuable article of commerce.

	Each	Per 10
5 to 6 feet.....	\$1.35	\$12.50

Walnut (American Black). The large, oily nuts are borne in heavy crops. They are much relished and always bring a fair price in market. The tree grows quite fast; its wood is exceedingly valuable.

	Each	Per 10
4 to 5 feet.....	\$0.75	\$ 6.50
5 to 6 feet.....	.95	8.50
6 to 7 feet	1.20	11.00

HARDY GRAFTED ENGLISH WALNUT TREES

These are not the tender varieties grown in the South, but are the hardy variety grown in New York State, Pennsylvania and Ohio.

Franquette. Tree hardy and reliable, nuts medium large, shell fairly thin, cracks easily.

	Each	Per 10
3 to 4 feet	\$1.30	\$12.00

HARDY GRAFTED PECAN TREES

We have arranged for a supply of Grafted and Budded Pecan Trees for spring delivery.

These trees will bear in one-third the time that a seedling tree will fruit. You are saving time and getting results much sooner when planting budded nut trees. Plant 40 to 50 feet apart as they make very large trees.

Schley. Thrifty, strong grower. Nut of the very highest quality and very thin shell.

Stuart. Extremely hardy, strong grower, nuts of good size, plump, well filled stop.

Success. Large, oblong, tapering to the apex. Color reddish brown, purplish markings, shell thin; kernel large, full, plump, yellow; flavor sweet. This is a good grower, heavy and regular bearer. Usually one of the latest to start growing in spring but a splendid variety.

	Each	Per 10	Per 100
Grafted or budded trees, 2 to 3 feet..	\$0.65	\$5.50	\$ 50.00

PERSIMMON (American)

The Persimmon makes a very handsome ornamental tree, and is hardy in this section. The fruit, although pungent when green, becomes sweet and palatable if allowed to remain on the tree exposed to the early frosts.

	Each	Per 10
4 to 5 feet.....	\$0.95	\$ 8.50

GOOSEBERRIES

Cannot be shipped to States west of Iowa, Missouri and Arkansas, or to Minnesota, account embargo.

Requires same cultivation as the currant. Mulch deeply six or more inches with straw. The mulch retains moisture and the fruit is large and evenly ripened. In mulching, be sure that the ground is underdrained, or it is worse than useless. Good cultivating is better than half mulching.

Plant in rows five feet apart and the plants three feet apart in the rows—2,904 plants to the acre. Write for prices on larger quantities than quoted.

Downing. Size medium to large, oval, greenish white; plants vigorous, upright, very productive; never mildews.

	Each	Per 10	Per 100
2-year, No. 1.....	\$0.15	\$12.50	\$10.00

Houghton. A vigorous grower; very productive; not subject to mildew. Flesh tender and very good. Red when ripe.

	Each	Per 10	Per 100
2-year, No. 1.....	\$0.15	\$12.50	\$10.00

BLACKBERRIES

Many kinds of blackberries will succeed, not only on good fruit land, but even on the most sandy, porous soil. They require the same treatment as recommended for raspberries, but in field culture should be planted in rows seven feet apart and three feet distant in the row; in garden culture, plant rows five feet apart and three feet distant in the rows. The pruning should be governed by the growth of cane and should be severe. Pinch back the canes in summer when three feet high, causing them to throw out laterals.

Heavy mulch of straw or other light litter is very beneficial.

When planting 7 by 3 feet it takes 2,078 plants for an acre.

When planting 5 by 3 feet it takes 2,904 plants for an acre.

Our blackberry plants are all grown from root cuttings; they are free from disease.

Blowers Large size, jet black, good shipper. Per 10, 90c; per 100, \$4.50; per 1,000, \$35.00.

Early Harvest. This is one of the earliest blackberries in cultivation; a compact, dwarf grower; fruit medium size and fine quality; an enormous bearer. Per 10, 70c; per 100, \$3.50; per 1,000, \$24.00.

Eldorado. Very vigorous and hardy. The berries are large, jet black, melting and pleasing to the taste; have no hard core. Per 10, 90c; per 100, \$4.50; per 1,000, \$35.00.

Early Harvest Blackberry

DEWBERRIES

Lucretia. One of the low-growing, trailing blackberries. Perfectly hardy, healthy and remarkably productive, soft, sweet and luscious with no hard core.

	Per 10	Per 100	Per 1000
1-year plants	\$0.80	\$ 4.00	\$ 34.00

RASPBERRIES

Will do very well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. All kinds of raspberries are benefited by mulching both summer and winter. Spring is the best season to plant. Plant in rows six feet apart, three feet apart in rows, 2,240 plants to the acre.

Write us for prices on larger quantities.

Chief. A new red variety, ripens ten days earlier than Latham. Fruit medium, good color and of high quality. Very hardy. Each, 15c; per 25, \$2.50; per 100, \$5.50.

RED SORTS

Cuthbert. A remarkably strong, hardy variety; berries very large, rich crimson, very handsome, sweet, rich and luscious; highly flavored. Per 10, 75c; per 100, \$4.25; per 1,000, \$25.00.

King. Said by many to be the best early red raspberry. Plant a strong grower, hardy and productive. Berry firm, good shipper; large size; color, bright scarlet. Per 10, 75c; per 100, \$4.25; per 1,000, \$25.00.

Latham. The Big Red Raspberry. The production of this new variety, together with the fine appearance of the fruit and its splendid shipping qualities make it a very profitable sort. Its extreme hardiness and splendid vigor insure big crops. We consider this a valuable addition to our list of Red Raspberries. Per 10, \$1.00; per 100, \$4.25; per 1,000, \$25.00.

St. Regis. This variety has proven its worth again during the season of 1930, producing fine crops of fruit. Begins to ripen with the earliest and continues to bear on young wood until October. Berries bright crimson, large size, rich sugary raspberry flavor. Flesh firm and meaty, a good shipper. Per 10, 75c; per 100, \$4.25; per 1,000, \$25.00.

PURPLE SORTS

Columbian. An improvement on Shaffer's which it resembles, but the berry is much firmer, adheres to the bush much longer and retains its shape better, both on the market and for canning. Bush a stronger grower, attaining a very large size. One of the hardiest and wonderfully prolific. Per 10 Per 100 Per 1,000

1-year tips	\$1.00	\$ 5.00	\$ 35.00
-------------------	--------	---------	----------

BLACK SORTS

Cumberland. The largest of all black caps. A healthy, vigorous grower, throwing up stout, stocky, well-branched canes that produce immense crops of magnificent berries. Fruit very large, firm; quality about the same as Gregg; keeps and ships well as any of the blacks. The most profitable market variety.

	Per 10	Per 100	Per 1,000
Tips	\$0.80	\$4.25	\$ 25.00

Kansas. A strong, vigorous grower, standing extremes of drought and cold and bearing immense crops. Early, berries size of Gregg, of better color; jet black and almost free from bloom; firm, of best quality.

	Per 10	Per 100	Per 1,000
Tips	\$0.80	\$4.25	\$ 25.00

Plum Farmer. A few days later than Kansas; matures its crop in a very short period, making it one of the most profitable early market sorts. Berries are thick-meated, firm, with a bloom similar to Gregg. Large berries.

	Per 10	Per 100	Per 1,000
Tips	\$0.80	\$4.25	\$ 25.00

ASPARAGUS

Bed should be made rich and spaded over, three rows eighteen inches apart, setting plants about sixteen inches apart in the row, and say, four inches deep. Let the earth be raked over, covering plant about two inches; as the plant grows up, more ground should be added and let this bed be kept clean and free from weeds at all times and well manured. Asparagus plants grow upward in place of downward; hence the filling in at intervals.

Washington. A new rust-resistant pedigreed Asparagus.

	Per 25	Per 100	Per 1000
2-year, No. 1	\$0.75	\$ 2.00	\$ 14.00

Write us for prices on large quantities.

RHUBARB OR PIEPLANT

This deserves to be ranked among the best early fruits of the garden. It affords the earliest material for pies and tarts, continues long in use and is valuable for canning. Make the bed very rich and deep. Plant in rows four feet apart and the plants three feet distant. Set the roots so that the crowns are about an inch below the surface.

Linnaeus. Large, early, tender and fine; the very best of all.

	Each	Per 10	Per 100
2-year, No. 1	\$0.20	\$1.50	\$10.00
2-year medium large sets15	1.00	7.50

CURRANTS

Cannot be shipped to States west of Iowa, Missouri and Arkansas, or to Minnesota, account embargo.

Currants should be planted in good, very fertile soil, with liberal manuring, and the tops should be cut back nearly to the crown, allowing only three or four canes to grow the first year. Prune more or less every year to get rid of old wood and keep the bushes open. Plant same as Gooseberry.

Write for prices on larger quantities than quoted.

Cherry. Very popular in market and brings several cents more per quart than any other old variety.

	Each	Per 10	Per 100
2-year, No. 1	\$0.20	\$1.60	\$13.00

Fay. Berries are large, uniform in size, with long stems, good flavor, and is very productive and easy to pick.

	Each	Per 10	Per 100
2-year, No. 1	\$0.20	\$1.60	\$13.00

London. Plant is extremely vigorous, with perfect foliage, which it retains through the season; an enormous cropper; ripens with Victoria; is large in bunch and berry.

	Each	Per 10	Per 100
2-year, No. 1	\$0.20	\$1.60	\$13.00

Perfection. The color is a beautiful red. It is a great bearer and on account of its great productiveness the plants should be kept well cultivated and fertilized, as should all heavy bearers. Ripens about the same time as Fay. Quality rich, mild, sub-acid; plenty of pulp, with few seeds.
 Each Per 10 Per 100
 2-year, No. 1.....\$0.25 \$2.00 \$ 15.00

Wilder. Large, very productive, sweet and hangs a long time on the bushes in fine condition after fully ripe.
 Each Per 10 Per 100
 2-year, No. 1\$0.20 \$1.60 \$13.00

STRAWBERRIES

We have discontinued growing strawberry plants, but have arranged with a reliable grower to furnish and ship direct all strawberry orders entrusted to us. The plants will be strictly true to name and good healthy stock. All plants tied in bundles of 25. Plants will be ready for shipment about April 10th, weather permitting.

All strawberry plants will be sent either Parcel Post or Express, according to quantity. All orders must be accompanied by check to cover.

Plant in rows 4 feet apart, plants 18 inches apart in row, requiring 7,260 plants to acre.

Varieties we recommend:

Blakemore. Early.
 Premier. Early.
 Senator Dunlap. Medium Early.
 Dr. Burrill. Medium Early.
 Big Joe. Midseason.
 Aberdeen. Midseason.
 Aroma. Late.
 Gibson. Late.
 Wm. Belt. Late.
 Gandy. Very Late.

SCALECIDE

—THE COMPLETE DORMANT SPRAY—
Costs More Per Gallon - ~~but~~ Costs No More Per Tree

We are the Western Distributing Agents for the B. G. Pratt Co., Manufacturers of Scalecide and Sulfocide.

Send for
BOOKLET
"A Successful
Spray Program"
—it's FREE

When you spray with Scalecide, you can rest assured that you have done all that can be done, at that particular time, by any dormant spray or combination of sprays. Scalecide is the quality miscible oil. It is a profit-maker and not merely a bug-killer. The invigorating effect alone is worth the cost. Dilute one gallon to fifteen gallons of water.

It is 100 per cent effective for killing Scale and Aphis. Kills eggs of Leaf Roller and Red Mite.

Kills fire blight cankers, fungous cankers and fungous spores.

Invigorates your trees, saves labor and is a guaranteed product.

One gallon of SCALECIDE makes fifteen gallons spray.

SPRAYING MADE EASY

Everyone who has fruit trees knows that there is no "bugbear" about the dreaded spraying that once was so worrisome. You can now buy spray materials to put into water like you drop sugar in your coffee. All you have to do is to stir up the solution. A small spray pump can be purchased from a hardware man as easily as you can buy a plow. To make spraying a particularly simple process send to us for a bulletin on the subject. You will then have a future reference.

Quarts and gallons shipped by express or parcel post only. Deposit on drums must be paid at time of purchase. Cash refund made, when drum is returned, freight prepaid to B. G. Pratt Company, Hackensack, N. J., in good condition.

SULFOCIDE

A Better Summer Spray

Briefly, these are the reasons why Sulfocide is "a better summer spray." It does not russet apples (Bordeaux does); it does not devitalize the foliage and dwarf the fruit (lime-sulphur does); it can be used on both peaches and apples and on all kinds of fruits and vegetables (no other fungicide can); it imparts to the fruit a beautiful lustre and finish; it costs no more than home-made Bordeaux. Sulfocide is a highly concentrated, non-poisonous liquid sulphur fungicide, quite distinct from lime sulphur.

The most powerful fungicide. Will control apple scab, stops brown rot, retards decay in ripening fruit. The best remedy on the market for controlling the shot-hole fungus which defoliates the cherry tree in early summer. One gallon makes 200 gallons spray.

Send for booklet, "A Successful Spray Program."

PARAZENE OR SANTOCHLOR

For Killing the Peach Tree Borer

Application should be made in early spring or early fall, on trees 5 years old or over.

Prices: 1-pound carton 60c each; 5-pound cans, 45c per pound; 10-pound cans, 40c per pound; larger quantities priced upon application.

POMO-GREEN WITH NICOTINE

For controlling leaf eating insects, sucking insects (aphis) and many plant diseases.

1-pound cans.....	\$0.75
5-pound cans.....	3.00

Pomo-Green. This new, all around rose dust for control of mildew, black spot and chewing insects on roses, well known to members of the American Rose Society. The color is leaf-green, which eliminates descoloration of foliage. We highly recommend this remedy. SEND FOR LITERATURE.

1-pound cans.....	\$0.50
5-pound cans.....	2.00

Proportions

For small quantities of spray solution, these figures will help you to get the proper mixture. Be accurate.

Material	Dilution Recommended
Scalecide	1 gal. to 15 gals. water.
Sulfocide	1 gal. to 200 gals. water.
Arsenate of lead.....	3 lbs. to 200 gals. water.
Kayso	3 lbs. to 200 gals. water.
Soap (liquid)	3 lbs. to 200 gals. water.
Nicotine sulphate	2 lbs. to 200 gals. water.

Amounts of Dilute Spray Required

These figures will be fairly accurate for both Scalecide as a dormant spray and Sulfocide as a summer spray.

	Per Tree
2 to 5-year-old trees.....	½ to ¼ gal.
6 to 8-year-old trees.....	¾ to 1 gal.
9 to 13-year-old trees.....	1 to 1½ gals.
14 to 18-year-old trees.....	2 to 2½ gals.
19 to 24-year-old trees.....	3 to 3½ gals.
25 to 30-year-old trees.....	3½ to 4 gals.

VOLCK

The Scientific Insecticide for nursery, greenhouse and garden. Controls scale insects, mealy bug, white fly, red spider, rust mites, aphids and thrips. A 2 per cent solution will kill white pine scale on Evergreens. Ask us about it.

- 1 gallon of spray, use 3 level tablespoonfuls.
- 3 gallons of spray; use 8 level tablespoonfuls.
- 5 gallons of spray, use 1/2 pint.
- 50 gallons of spray, use 1/2 gallon.
- 100 gallons of spray, use 1 gallon.

VOLCK is packed in convenient sizes:

1/2-pt. cans.....	\$0.35	1-gal. cans.....	\$ 2.50
1-pt. cans.....	.55	5-gal. cans.....	7.50
1-qt. cans.....	.80	28-gal. drums.....	28.00

KLEENUP is a petroleum oil emulsion made from selected oils to meet exact requirements for viscosity, refinement, and toxic powers.

If you are in need of Scalecide, Sulfocide, Arsenate of Lead, Cal-Arsenate, Bordeaux Mixture, Bordeaux-Lead Arsenate, Lime Sulfur, Nicotine Sulphate 40%, write us.

IMPORTED GRANULATED

PEAT MOSS

Torf Mull

FOR LAWNS. Apply Peat Moss on lawns in early spring or late fall. It will hold the moisture at the roots of the grass and prevent souring. In the fall cover the lawn with one-half inch of Peat Moss. It will be assimilated by spring. If fall covering has been neglected apply a light application in the spring and occasionally during the summer. One bale will cover 480 square feet one-half inch thick.

FOR MULCHING. A mulch 4 or 6 inches deep on fall bulbs is beneficial. As a summer mulch for roses, cannas, peonies, dahlias, etc., Peat Moss assures constancy of moisture supply and makes for perfect development.

10 pounds.....	\$0.50
1/2 bale.....	1.75
1 bale.....	2.90

FISH OIL SOAP

1-lb. tins, 35c; in bulk, 20c per pound.

It is highly recommended for the following uses:

For thoroughly wetting and penetrating insects with Nicotine sprays.

As an emulsifier in the preparation of oil sprays.

For deflocculating and spreading Arsenate of Lead sprays on smooth fruits.

For spraying Palms, Rubber Plants, Rose Bushes, Geraniums, Porch Plants and vines of every description as well as delicate plants.

CLINTARK—The Plastic Tree-Saver

Will quickly renew the life of wounded, decayed trees. Wounds when covered with Clintark are effectually covered and protected from insects and diseases.

Send for circular which describes this product more fully.

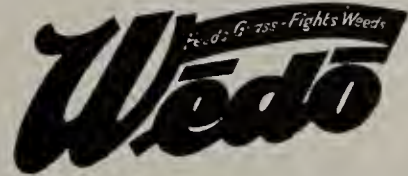

Prices—1-lb. can, 60c; 2-lb. can, 85c; 5-lb. can, \$1.35; 10-lb. can, \$2.25.

SACCO increases soil fertility by providing the vital nourishing elements—Nitrogen, Phosphates, Potash. It helps to correct soil acidity and promotes successful, rapid growth of all plants and grass. It has many times the plant food value of ordinary manure.

FERTILIZERS

Animal manure is best for the average plant. Sheep manure is quickest acting; cow manure lasts longer and makes soil solid; horse manure leaves soil in best physical condition, while fowl manure is concentrated and should be applied with care.

Bone meal is one of the best to apply, being easy to handle and effective.

Nitrates and complete commercial fertilizers can be used to advantage, but don't apply all at one time, give in broken doses.

LET US HELP YOU WITH YOUR PROBLEMS.

NATURE'S PLANT FOOD

Cattle Manure and Sheep Manure

Contain no burning ingredients.

They are safe to use freely.

Each packed separately.

It's All Fertilizer and will impart to your plants such vitality that they will again become the delight of your home. Unequalled for ferns, palms and all other house plants. Renews vitality of your lawn, makes roses bloom better, will not damage anything that grows.

NATURE'S PLANT FOODS

are obtainable in

1 lb., 15c; 10-lb., 45c; 25-lb., 90c; 50-lb., \$1.50; and 100-lb. packages, \$2.50; 500 lbs., \$11.25; 1,000 lbs., \$20.00; ton, \$35.00.
